

FAST-FOLD SCREEN ACCESSORIES

H-D Legs

HD Legs recommended for use on Fast-Fold® Deluxe screens 7'6" x 10' and larger and on all draped units.

A-T Legs

Front and back reinforced legs for additional stability on all Fast-Fold® Screens.

T Legs

Replacement legs for all standard Fast-Fold® and Fast-Fold® Deluxe screens.

- 9' pair
- 12' pair

Poly Case

Extra durable carrying case sized for Fast-Fold® drapery kits and standard Fast-Fold® screens. Da-Lite poly cases meet or exceed Air Transport Association (ATA) Specification 300 standards.

- Drapery Kit Case
- Fast-Fold® Screen case

FAST-FOLD® SCREEN ACCESSORIES

Anti-Sway Brace

Attaches to either side of leg for added horizontal stability on screens larger than 14' wide. Uses hook clamps which are sold separately.

Add-on "A" Braces

Converts "T-legs" to "A-T" style legs for added stability when using screens over 7'6" H x 10' W. Requires 1 pair per screen. Includes four hook clamps.

Leg Saver Back Brace

Provides added reinforcement to bottom hinge and joint of leg when screen is raised higher on legs.

Straight Screen Joining Clamp

Used to lock screens together to form a wider image. Two clamps required for screens up to 9' high and three clamps required for screens over 9' high.

Fast-Fold® Repair Kit

Includes everything needed to repair Fast-Fold® screens in the field.

Hinged Screen Joining Clamp

Used to lock screens together to form a wider image and allows screen to be angled. Two clamps required for screens up to 9' high and three clamps required for screens over 9' high.

Fill Strips

Choose from either Da-Mat, Cinema Vision or Pearlescent to conceal vertical center frames when joining two Fast-Fold® screens together. Attachments require four Fill Strip Clamps.

Fill Strip Clamp

Use to attach Fill Strips to Fast-Fold® frames.

Skirt Adapter Brackets

Brackets to allow use of larger skirt on smaller width screen.

Hook Clamps

Use for attaching "A" Braces to "T" style legs.

Speedy Cranks

Replacement cranks for Fast-Fold® frames.
