FLEX VIDEO Series –

FS-H1

DESCRIPTION

The **Flex Select** Model **FS-H1** is an ultra slim horizontal loudspeaker designed to mate with flat panel video displays. It has been designed for applications where the budget allows the use of separate amplifiers external to video displays. Carefully selected drivers are employed with sophisticated filter networks to take full advantage of the reserve power available with separate amplifiers to optimize performance and SPL in a slim profile. Nominal coverage angle is 100° H x 120° V. Configuration includes two 3.5" long-excursion LF drivers and one .75" textile dome HF driver.

KEY FEATURES:

- ultra-slim profile
- custom built to match exact width of flat panel video display
- optimized to work with extra power available with separate amplifiers
- can be used as a center channel in larger surround sound systems

APPLICATIONS:

- digital signage / tradeshow
- multimedia systems
- government / institutional AV
- small / midsize conference suites
- educational / training facilities
