

### *Key Features*

- Playback select downloaded content on your TV using a USB drive.<sup>1</sup>
- Compatible with multiple formats (including DivX, MP3, JPEG)
- HDMI™ Upscaling technology optimizes image quality.<sup>2</sup>
- Share vacation photos with family and friends on your TV
- Easy connectivity via HDMI™ , composite, or component cables
- Converts almost any TV into a digital photo frame
- Compact size and easy TV connections makes it perfectly portable
- BRAVIA® Sync capability for easy use.<sup>3</sup>

### *Key Technologies*

**Playback of digital media through a USB connection** With the USB Media Player you can playback content from most USB flash storage devices, cameras, camcorders or external Hard Disc drives<sup>1</sup> on big screen or TV. This digital media player eliminates the need to boot your PC or notebook to watch DivX movies or view photos. In addition, you get to see your movies and pictures on the big screen so others can share your personal content with you.

**Share your family photos and videos** The USB Media Player allows you to use almost any TV as a personal Photo frame, allowing you the ability to take your friends and neighbors on trip through your photos or to enjoy your videos.

**HDMI™ Upscaling technology** The USB Media player will take your content and apply digital processing to optimize the picture to match the resolution of your TV via HDMI technology.<sup>2</sup>

**Easy to use** Simply drop files from your PC onto a compatible USB Flash drive and plug it into the Media Player and start watching your personal videos or photos on your TV. Just got home from shooting photos? Just plug your camera in and view your photos as well. This makes your TV into a very large digital photo frame.

**Travel worthy** Due to its light weight, small size and easy connectivity the USB Media player can be carried on family trips so everyone can share the content instantly on a big screen TV.

**BRAVIA® Sync™ technology** gives you one-touch access and control of all your BRAVIA Sync compatible home theatre devices from your HDTV remote via HDMI™ connector (sold separately).<sup>3</sup>
