

LENRD® Bass Traps

Low-Frequency Absorption Treatments

Benefits:

- Made from Auralex's proprietary Studiofoam®
- Superior broadband absorption, especially at low frequencies
- Fits into room corners and wall/ceiling junctures perfectly (*treat trihedral and vertical corners first*)
- Easiest and most cost-effective way to control excess low frequencies without giving up large amounts of cubic space
- Won't crumble with age
- Class B flame retardancy
- Passes California fire code #117

Applications:

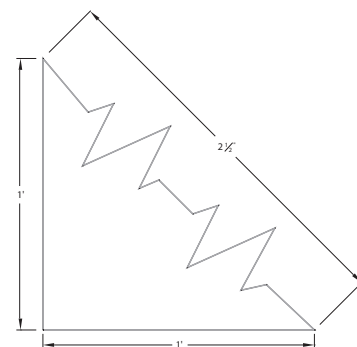

- Great for low-frequency control in any room, but are most effective in rooms smaller than approximately 16'x16'

Size:

- 2 linear feet, extends 1' out from the corner on each side

Box Information:

- (8) 12"x12"x17" triangular; 24" long/16 lineal ft. per box
- Box size of 24.5" x 24.5" x 24.5"

Installation:
