

Model: D4P-1

# Decora 4-hole Panel (1U)

**Description:**

The D4P-1 is a 19" 1U steel rackmount panel with four punched openings that holds up to four (1-gang) Decora® style devices mounted horizontally. The panel uses minimal rack space while providing an organized solution for mounting low-voltage devices in the front of the rack. It includes a rear lacing flange for wire management and keep nut hardware. Smooth, semi-gloss black epoxy finish. Order device controls and filler plates separately.

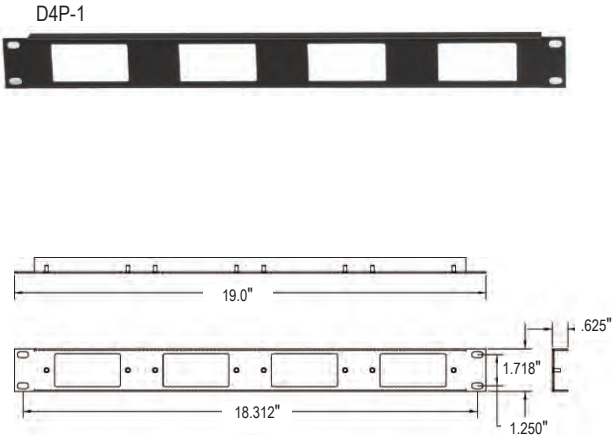

**Features:**

- Composition: 16-gauge US steel
- Size: 19"W x 1.75"H (1U)
- Style: flanged
- Finish: smooth, semi-gloss black powder epoxy
- Made in the USA

**A & E Specifications:**

Low voltage accessory devices (as specified) shall be mounted into Lowell rackmount device panel Model D4P-1. Panel shall be 19"W x 1.75"H. Panel shall be formed steel construction with four punched device cutouts and a black epoxy finish. It shall include hardware and a rear lacing flange for wire management. (Optional cover plate model DBB-4 shall be used to cover unused cutout positions.)

DBB-4 blank filler plate.

**Options:** (order separately)

- **DBB-4:** Blank Decora-style filler plate for unused positions. Set of four. Black finish.
- **Decora Device Suggestions:** The D4P-1 will accept up to four 1-gang Decora-style devices mounted horizontally. Some devices include a wall plate that must be removed before mounting device to panel. Devices listed have a black finish.
  - **RPSB-P:** maintained closure remote (rocker) switch, 1 LED
  - **RPSB-KP:** maintained closure remote (key) switch, 1 LED
  - **RPSB-KP-ASM:** maintained closure remote (key) switch, 1 LED (for use with sequencers with ASM option)
  - **RPSB-MP:** momentary closure remote (rocker) switch, 1 LED
  - **RPSB-MKP:** momentary closure remote (key) switch, 1 LED
  - **RPSB2-MP:** momentary closure remote (rocker) switch, 2 LEDs
  - **RPSB2-MKP:** momentary closure remote (key) switch, 2 LEDs
