

Vandal-resistant Grille (for Unihorn™ LUH-15T)

Description:

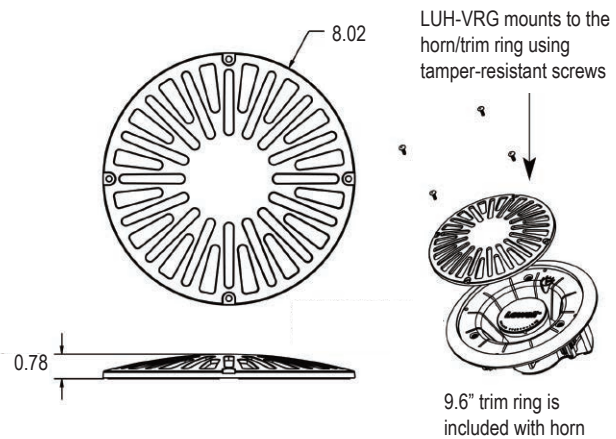

Model LUH-VRG is a rugged, cast-aluminum grille with a secondary stainless steel barrier screen. It's made to protect Unihorn Model LUH-15T from damage in applications where vandalism and abuse are a concern (correctional facilities, schools, hospitals, transportation terminals, manufacturing areas and distribution centers). The round grille has an 8.02" diameter and is engineered with a stainless steel barrier screen to prevent pointed objects from damaging the Unihorn. The grille casting has holes and includes (4) tamper-resistant stainless steel spanner screws to mount it directly to the 9.6" dia. trim ring that's included with Unihorn Model LUH-15T. The grille is finished in Network Grey powder epoxy to match the Unihorn.

Features:

- Rugged cast aluminum with stainless steel barrier screen
- Allows clear sound projection while protecting the Unihorn in vandal-prone areas
- 8.02" diameter x 0.78"D
- Grille screw-mounts to trim ring on Unihorn Model LUH-15T
- Includes tamper-resistant, stainless steel screws

A & E Specifications

The vandal-resistant grille for Lowell Unihorn Model LUH-15T shall be Lowell Model LUH-VRG. It shall be heavy duty, cast aluminum with a stainless steel barrier screen to protect the horn from damage. The grille shall be round and measure 8.02" dia. with a mounting projection of 0.78". It shall include stainless steel spanner screws to mount to the Unihorn's trim ring. Grille shall be finished in Network Grey powder epoxy.
