

Model: UDP-series

Utility Drawer – Premium

Description:

The UDP-series of utility drawers feature fully welded construction of 16-gauge steel, recessed drawer pull and slam latch with key lock. The drawers mount to front rack rails using standard EIA spacing and feature ball-bearing slides for smooth operation. They have a load capacity of 50 lbs. Smooth, black powder epoxy finish. Includes liner. Key-lock on front.

UDP utility drawers have a load capacity of 50 lbs. and a front key lock.

Features:

- Fully-welded 16-gauge US steel.
- Ball-bearing slides.
- Mounts on front rails of 19"W EIA rack.
- Load Capacity: 50 lbs.
- Smooth black powder epoxy finish.
- Front keylock.
- Made in the USA.
- Includes non-slip, perforated liner that provides a protective barrier between electronic accessories and the drawer's metal surface. 15.5" x 14".

Options: (order separately)

- **DFI-series:** drawer foam inserts are designed to protect sensitive equipment. Die-cut foam is pre-scored so you can "pick and pull" sections to create custom holes that keep accessories from jostling when drawer is opened and closed. Insert includes two pieces (die-cut foam plus 3/8" foam pad for bottom). 15.5" x 14". Fits UDE, UDEL and UDP-series drawers.
 - **DFI-2:** for 2U drawer
 - **DFI-3:** for 3U drawer
 - **DFI-4:** for 4U drawer

A non-slip drawer liner is included.

Create a custom-fit to cushion sensitive electronics with the optional (DFI) foam insert.

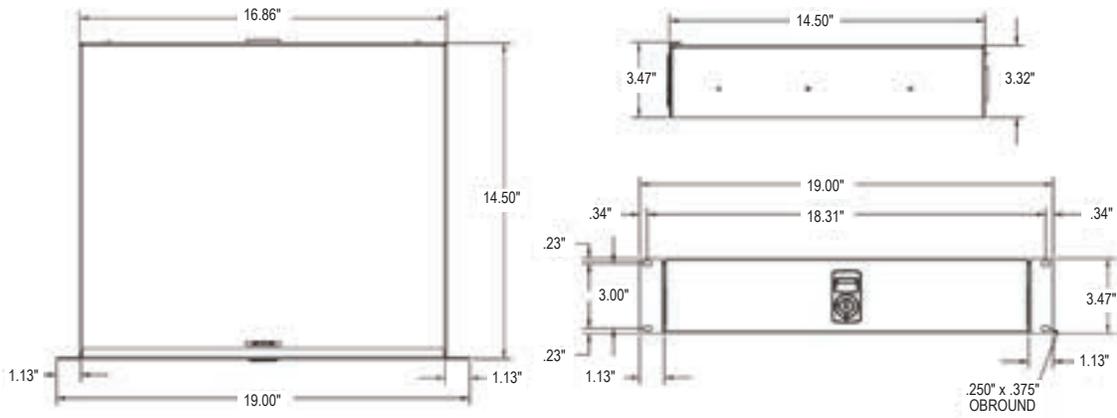

A & E Specifications:

The rackmount utility drawer shall be Lowell Model _____. It shall have a panel space height of _____ and shall be fully-welded, 16-gauge steel with a black powder epoxy finish. The drawer shall feature ball-bearing slides and have a load capacity of 50 lbs.
