

GENERAL INFORMATION

The Source Four Mini can go where no full-sized Source Four has gone before. ETC’s 50-watt Source Four Mini features the same crisp optics, user-friendly functionality and sleek look of the legendary Source Four fixture, but in a compact format a fraction of the size.

The Source Four Mini has four field-angle choices and comes in a portable version with a miniature C-clamp and a canopy-mount or track-mount design with an integral transformer. Surprisingly bright for its size, the Mini offers crystal-clear image projection and a bright, even field.
