

DT 880 PRO

Dynamic Headphone

Order # 490.970

FEATURES

- Semi-open studio headphone
- Rugged headband construction
- Single-sided cable
- Soft headband pad
- Gold plated stereo jack plug (3.5 mm) & 1/4" adapter (6.35 mm)

APPLICATIONS

The DT 880 combines the advantages of open headphones with those of closed studio headphones. The improved systems of the legendary DT 880 provide a high quality studio headphone with excellent analytical properties, especially for classical music.

The balanced reduction of environmental noise guarantees a perfect spherical sound, while the complete sound spectrum is reproduced in great detail from the lowest sub bass up to the highest frequencies. The higher frequencies are crystal-clear without being unpleasant and impress with a very smooth sound. The precise balanced mid frequencies are analytical and supportive, without being predominate. The bass is voluminous without being too obtrusive. The new designed headband fits for all headsizes and grants better wearing comfort, especially during long studio sessions.

TECHNICAL SPECIFICATIONS

Transducer type	Dynamic
Operating principle	Semi-open
Nominal frequency response	5 - 35,000 Hz
Nominal impedance.	250 Ω per cartridge
Nominal SPL	96 dB SPL
Nominal T.H.D	< 0.2%
Power handling capacity	100 mW
Sound coupling to ear	Circumaural
Nominal headband pressure	3.5 N
Weight (without cable)	295 g
Length and type of cable	3 m / single-sided coiled cable
Connection	Gold plated stereo mini jack plug (3.5 mm) and 1/4" adapter (6.35 mm)

(all specifications according to EN 60 268-7)
