
ATH-ANC7b-SViS QuietPoint®

Please refer to the information below to use the detachable cable with the inline control

The ATH-ANC7b-SViS headphones offer a cable with an inline microphone and controller for answering calls and controlling music. The mic and controller support select smartphone models and touchpad devices. The microphone has an omnidirectional pickup pattern and it is designed for crisp intelligibility, so your voice will be clearly transmitted without having to speak directly into the mic.

How to use inline control

Play music/
Pause music/
Answer & end calls

Click the control button once

Go to next track

Double-click the control button

Go to previous track

Triple-click the control button
