

Create a polished theatre-like presentation with a Cinefold Dress Kit. Drapery curtains surround the viewing surface, pulling the audience's focus to your presentation on the screen.

In addition to framing your presentation, dress kits can help hide projection equipment, shield projector light from the audience, and help prevent ambient light from entering the projection area.

Complete Dress Kit

A complete Cinefold Dress Kit includes a 46" (117 cm) tall skirt, 12" (30 cm) tall valance, universal valance bars, a pair of 32" (81 cm) wide side drapes and drapery bars. Valance and drapery bars fit snugly into the top of the Cinefold frame—no tools needed. A wheeled polypropylene carrying case is included with Cinefold Dress Kit. Dress Kit components may also be purchased individually. Warranted for one year against defects in materials and workmanship

Fabric

Black 20 oz (567 g/m²) Velour is standard, also available in rich navy or a variety of custom colors—details available on request. 20 oz (567 g/m²) Velour is treated for flame retardancy. Masking strips are optional.

Inherently Flame Retardant (IFR) Velour is also available for Cinefold Dress Kits. Draper's IFR Velour never needs retreating—it is flame retardant for the life of the fabric. More resistant to wrinkling than standard Velour, yet 15% lighter weight for easier installation and fabric management.

Flame Retardancy Standards—Draper's Inherently Flame Retardant Velour is manufactured and certified to meet these flame retardancy standards: *NFPA 701, MVS-302, BIFMA-F-1-1978, SC-191-53 Class 1 California, and UFAC Class 1.*

Attachment

Dress Kit hardware attaches to top of Cinefold frame. Side Drapery Bars slide into the ends of the Valance Bar and lock with a ball detent. The skirt attaches to snaps fitted along the bottom of the screen surface.
