L-PAD MIXING CONSOLES

The elegant and reliable solution for any audio applications for live or fixed installations.

L-PAD STORY

Since 1949 RCF has produced components such as drivers and woofers used by some of the world's most prestigious speaker manufacturers. For more than 30 years RCF has produced its own speakers, that have become a standard reference in sound reinforcement applications at all professional levels, from one-man bands to major rock concerts, with audience up to 100,000 people. RCF also has a major presence in thousands of civil and industrial installations such as stadia, railway, airports and theme parks worldwide. This constant presence in the world of speakers has led RCF on to new challenges in their quest for a completion of its offer; from this research the RCF L-PAD line has been born.

MAIN FEATURES

RCF L-PAD is a line of compact but high performance audio mixers with enhanced flexibility. The elegant and modern Italian design completes the appeal of these indispensable tools in any live audio application — from the performance of a rock band or a jazz quartet, to supporting a conference room or a media centre rather than a museum or library.

The L-PAD line includes 9 different models of mixer:

- L-PAD6 - 6 CHANNEL MIXING CONSOLE
- L-PAD6X - 6 CHANNEL MIXING CONSOLE WITH EFFECTS
- L-PAD8C - 8 CHANNEL MIXING CONSOLE
- L-PAD8CX - 8 CHANNEL MIXING CONSOLE WITH EFFECTS
- L-PAD10C - 10 CHANNEL MIXING CONSOLE
- L-PAD12C - 12 CHANNEL MIXING CONSOLE
- L-PAD12CX - 12 CHANNEL MIXING CONSOLE WITH EFFECTS
- L-PAD16CX USB - 16 CHANNEL MIXING CONSOLE WITH EFFECTS
- L-PAD24CX USB - 24 CHANNEL MIXING CONSOLE WITH EFFECTS

The models are distinguished by an uncompromising audio quality, by the presence of compressors in seven of the models and internal multi-effects in five of the models, all in a compact layout with an accurate Italian design. Considerable research has been devoted to the design of warm-sounding and transparent mic preamps. The compressors installed on the microphone channels of the RCF L-PAD mixer are highly intuitive, with a single knob that controls the threshold and compression ratio at the same time. The compressors also have a very soft but effective action — the result of an accurate study of the parameters. The three-band EQ (with selectable mid-frequency on L-PAD 16CX USB and L-PAD 24CX USB) on mono channels and the two bands on the stereo channels (four bands on L-PAD 16CX USB and L-PAD 24CX USB) have a very effective intervention thanks to the right choice of frequency of intervention and allow the user to process the input signal professionally. L-PAD8C - 8CX and 10C can rely on super-tested modular and 45mm faders while on models 12C, 12CX, 16CX USB and 24CX USB 60mm faders are present. A sophisticated DSP takes care of the management of the internal effects; 16 presets are available in the compact L-PAD6X while L-PAD8CX, 12CX, 16CX USB and 24CX USB have a choice of 99 different presets.

THE PERFECT MATCH WITH RCF ACTIVE SPEAKERS

TRANSPARENT SOUND

The L-PAD mixer series inherits the RCF concept of "Sound Culture".

Extreme care in the design and realization of circuits provides L-PAD mixers with sonic transparency, combined with an accurate dynamic and extreme versatility of use.

RELIABILITY

All mixers in the L-PAD series undergo four extensive instrumental quality tests during their construction.

At the end of the production process they are tested once again, this time via a listening test, and are given an aesthetic quality control test to look for the presence of defects such as scratches or dents. All this is to guarantee a high level of reliability and to ensure the customer purchases a high quality standard product.

DESIGN

The unique design of the L-PAD series mixers comes from the typically Italian flair and creativity of the RCF design offices.

The line project of the L-PAD mixer combines a modern and ergonomically-superior design. The side profile presents an original aesthetic, ensuring at the same time that the mixer can be grabbed in an easy and secure way.

ADD-ON BOARDS

Useful in any application, the L-PAD audio mixer line has the ability to install an add-on board for the optional recording and playback of MP3 audio files.

Files can be collected in a USB pen size up to 32GB and managed by a convenient, dedicated transport panel.

One further optional Bluetooth card allows connection of devices such as smartphones or tablets to play music directly into the L-PAD mixer.

L-PAD 24CX USB

24 CHANNEL MIXING CONSOLE WITH EFFECTS

The L-PAD 24CX USB is a 24-channel, 4-bus mixer with 18 Mic/Line, 4 Stereo Input, 4 Group out, EQ, 8 single-control compressors and internal effects, for any live performance reinforcement. It features 18 transparent sound, ultra-low noise microphone inputs with balanced XLR connector, or alternatively 16 mono line input with insert send/return, a three-band EQ with a sweepable mid frequency on 16 channels, 4 channels of stereo inputs with 4-band fixed EQs, and 4-groups assignable sub mixes, 60mm long-life extra smooth faders and four AUX sends per channel (2 Pre/Post switchable pots). The L-PAD 24CX USB gives you all the features you need to mix any professional live performance.

- 18 MIC/LINE inputs, 4 STEREO inputs
- 8 single-control dynamic compressors (Ch. 1-Ch.8)
- 4 STEREO AUX returns
- 3-band EQ with sweepable MID Frequency on microphone channels
- 4-band fixed EQ on stereo line channels
- 4 AUX sends per channel: 2 PRE/POST faders switchable
- 4-GROUP MIX
- 24-bit DSP effects for 99 presets
- USB port for PC audio recording and playback

COMPRESSORS

The first 8 mic/line input are provided with smooth-action single-control dynamic compressors. Even the most demanding signals are under control.

INTERNAL EFFECTS

L-PAD 24CX USB offers a powerful internal effects DSP. The 99 preset selector allows you to choose between several warm effects

HIGH HEADROOM, ULTRA LOW NOISE, TRANSPARENT MIC PREAMPS

All RCF L-PAD Series mixers are designed with high headroom and ultra low-noise, discrete mic preamps to always get the full dynamic range of your mix.

FADERS

Long life extra smooth 60mm faders.

USB AUDIO INTERFACE

Capture your live mix with your laptop and DAW software by simply connecting a USB cable to the L-PAD 24CX USB. This USB-enabled professional mixing console features a USB port that streams two channels of 24-bit audio out to your computer (Main Mix or Sub Mix 1/2). With the L-PAD 24CX USB you can record band rehearsals, club gigs, speech, worship events, and any other live performance. Furthermore, this USB connection is bi-directional so you can also reproduce audio from your laptop to the L-PAD 24CX USB for audio and music playback.

L-PAD 16CX USB

16 CHANNEL MIXING CONSOLE

The L-PAD 16CX USB is a 16-channel, 4-bus mixer with 10 Mic/Line, 4 Stereo Input, 4 Group out, EQ, 6 single-control compressors and internal effects, for any live performance reinforcement. It features 10 transparent sound ultra-low noise microphone inputs with balanced XLR connector, or alternatively 8 mono line input with insert send/return, a three-band EQ with a sweepable mid frequency on 8 channels, 4 channels of stereo inputs with 4-band fixed EQs, and 4-group assignable sub mixes, 60mm long-live extra smooth faders and four AUX sends per channel (2 Pre/Post switchable pots). The L-PAD 16CX USB gives you the all the features you need to mix any professional live performance.

- 10 MIC/LINE inputs - 4 STEREO inputs
- 6 single-control dynamic compressors (Ch. 1-Ch.14)
- 4 STEREO AUX returns
- 3-band EQ with sweepable MID Frequency on microphone channels
- 4-band fixed EQ on stereo line channels
- 4 AUX sends per channel: 2 PRE/POST faders switchable
- 4-GROUP MIX
- 24-bit DSP effects for 99 presets
- USB port for PC audio recording and playback

MIC PREAMP

All RCF L-PAD Series mixers are designed with high headroom and ultra low-noise, discrete mic preamps to always get the full dynamic range of your mix.

FADERS

Long Life Ultra reliable 60mm faders, all passed a long life use test including several tens of thousands of complete cycles.

100 PRESET INTERNAL EFFECTS

Whether you're mixing a Jazz quartet or a heavy metal band, give your mix a professional touch with 100 internal 24-bit DSP effects. Choose from room and echo delays, small and large hall, plate and flange reverbs and more. The L-PAD 16CX USB offers 10 variations of 10 professional effects from which to complete, improve and spatialize your sound.

COMPRESSORS

Smooth-action, single-control dynamic compressors.

SLOT

Super versatile L-PAD slot: one of the intelligent L-PAD option cards can be installed here. MP3 PLAYER, MP3 PLAYER/RECORDER or the BLUETOOTH Connection cards. These optional cards expand your L-PAD mixer usability adding an internal music player, a super-intuitive recorder or allows you to connect any Bluetooth device to reproduce your favorite playlist.

L-PAD 12CX

12 CHANNEL MIXING CONSOLE WITH EFFECTS

With six transparent sound mic inputs, four stereo line inputs and the 2tk in/ out L-PAD12CX is the ideal tool for small band gigs, complex conference, corporate events and all situations where it is necessary to handle several signals. Four single-control compressors on mic channels help to handle even the more dynamic-complex signals. The 99 preset Internal FX DSP allows the sound to be enhanced by adding accurate and warm effects. When not in use for Internal effects the FX send and the AUX sends allow small stage control, with the appropriate wedge monitors. The super versatile L-PAD slot permits the optional L-PAD MP3 PLAYER, PLAYER/RECORDER or BLUETOOTH CONNECTION cards to be inserted.

- 6 mono INPUT + 4 stereo INPUT
- 4 Compressors (Ch. 1-4)
- 3band/2band EQ
- 1 AUX send
- 1 FX send
- Internal Digital Effects: 99 preset
- Internal PSU 100V-240V, 50-60Hz, 40W

L-PAD 8CX

8 CHANNEL MIXING CONSOLE WITH EFFECTS

With four transparent sound mic inputs, three stereo line inputs and the 2tk in/ out, L-PAD8CX is the ideal tool for duo/trio gigs, speech, background music diffusion and parties. Two single-control compressors on mic channels help to handle even the more dynamic complex signals. The 99 preset Internal FX DSP allows the sound to be improved by adding accurate and warm effects. The super versatile L-PAD slot permits the optional L-PAD MP3 PLAYER, PLAYER/RECORDER or BLUETOOTH CONNECTION cards to be inserted for even more flexible use. Thanks to the accurate Italian design L-PAD8CX is easy to grab, transport and handle in all situations.

ACCESSORIES

ADD-ON BOARDS - BAGS - RACK MOUNT

Useful in any application the L-PAD audio mixer line has the ability to install an add-on board for the optional recording and playback of MP3 audio files. Files can be collected in a USB pen size up to 32GB and managed by a convenient, dedicated transport panel. One further optional Bluetooth card allows devices such as smartphones or tablet computers to be connected, and music played directly into the L-PAD mixer.

Carry in an easy and secure way your L-PAD mixer using the L-PAD padded bags. Use them for mixer and accessories as cables, microphones, tablet computers transportation.

Easily install your L-PAD mixer in a rack or flight case using the rack mount accessories. Very interesting for the small L-PAD mixer versions the possibility of Mic Stand installation using the Mic Stand accessory.

L-PAD PLAYER CARD

p/n 133.60.287

An MP3 player can be added to your L-PAD mixer by installing this intelligent card in its dedicated slot. Place your preferred MP3 songs on a USB stick, evenly divided in separated folders, plug the USB stick into its dedicated port on the PLAYER CARD and play your music through the L-PAD mixer without any further external device.

L-PAD PLAYER/RECORDER CARD

p/n 133.60.288

An MP3 player and recorder can be added to your L-PAD mixer by installing this intelligent card in its dedicated slot. Place your preferred MP3 songs on a USB stick, evenly divided in separated folders, plug the USB stick into its dedicated port on the PLAYER CARD and play your music through the L-PAD mixer without any further external device. Record the music program present on MAIN MIX just by pressing the REC button. This is an ideal accessory to record your rehearsal or gigs.

L-PAD BLUETOOTH™ CARD

p/n 133.60.289

The BLUETOOTH™ CARD can be connected to any BLUETOOTH™ device, such as smartphones or tablets and your playlist will be reproduced directly through the L-PAD mixer. This card allows a highly practical wireless connection with the mixer — ideal for background music reproduction or any other music application.

L-PAD BAG 6/6X
