

ES-T15

Sony FS7 Camera Rig TILTA

ONE SHEET

Overview

Tilta Armor designed specifically for the Sony FS7. Engineered to enhance FS7 operation with a quick release baseplate, an improved shoulder pad, power supply system, and lens adapter support. Every piece is designed and precisely machined out of anodized aluminum to provide a smooth, clean and solid finish.

The ES-T15 comes equipped with a VCT Baseplate that is compatible with Sony's existing VCT-14 & VCT-U14 quick release tripod adapters. The baseplate features two 15mm rod clamps (front & back), two Arri standard rosette mounts (left & right), a shoulder pad, one 1/4" -20 threaded hole and another 3/8" -16 threaded hole located underneath as an additional tripod mounting option.

ES-T15

Features you need, Prices you want.

Quick Release Baseplate

The ES-T15 comes equipped with a VCT Baseplate that is compatible with Sony's existing VCT-14 & VCT-U14 quick-release tripod adapters. The baseplate features two 15 mm rod clamps (front & back), two Arri standard rosette mounts (left & right), a shoulder pad, one 1/4"-20 threaded hole, and another 3/8"-16 thread hole located underneath as an additional tripod mounting option.

Rear Mounted Power Supply

The ES-T15 Power Supply Kit comes with a Sony V-Mount Power Supply System that mounts directly to the rear of the FS7 camera. The power supply system is compatible with Sony V-Mount batteries, and outputs 14.8V P-Tap, 12V, 8V, and 5V DC. (one P-Tap and four DC cables included).

Lens Adapter Support

The front plate has an integrated lens adapter support system designed to fit Metabones lens adapters.

Fitted Top Handle

The top plate is designed to fit around the existing Sony FS7 top handle.

15mm Threaded Rods

The Sony FS7 rig comes with two 15mm threaded aluminum rods.

Additional rods available through ikan.
