

JS-MNT101 Universal iPad[®] Holder

Always Within Arm's Reach!

This highly affordable iPad holder puts your music, lyrics, set lists, tabs, contacts, and all other important documents and information right where you need them - at the tip of your fingers while you're playing music! The JS-MNT101 mounts to the pole of nearly any microphone stand and securely holds all iPads including the iPad mini. You can adjust the angle and axis of your iPad easily at two different points on the JS-MNT101. What's more, it's easy to clamp your iPad in either landscape or portrait view using an additional adjustment knob on the back of the holder itself.

JS-MNT101 Features:

- Securely holds all iPads including iPad mini
- Connects to microphone stand pole
- Highly adjustable to suit viewing needs
- Secures in portrait or landscape view
