

# AX-48 PRO PLUS

*APEX Series Two-tier Portable Column Keyboard Stand (Black), Boom Attachment, Ulti-Boom (Telescoping), and Professional Tote*

## Sleek, New Design

The modern look and shape of the APEX® AX-48 Pro brings the keyboard player out from behind a stack of no-character keyboard stands and into the spotlight with the rest of the band. The new AX-48 Pro is as aesthetically pleasing as it is performance ready.

## Professional Tribar Arms

Keyboards have evolved in the last two or three decades since the original APEX was developed. The APEX AX-48 Pro now ships with two sizes of Tribar support arms (one set of 13" arms, and one set of 18" arms) to safely hold today's keyboards, synthesizers, and keyboard workstations of all sizes.

## Simple Setup and Tear Down

Setup and tear down takes seconds! The AX-48 Pro breaks down into a single, slender unit that's easy to transport and doesn't take up hardly any room because the hollow column becomes the carrying case for the support legs and arms!

## Includes Mic Boom and Professional Tote

The AX-48 Pro Plus bundle includes the best microphone boom arm ever developed for live performance, the Ulti-Boom (Telescoping) and an adapter that fits right on top of the APEX keyboard stand! What's more, this bundle includes a professional tote that not only houses the keyboard stand, but also has a dedicated space for the Ulti-Boom.

Ulti-Boom mic boom arm included – and support arms store inside the column!

Patented Tri-bar arms are height adjustable

Cable management system keeps cables from getting into the way of your performance

Professional tote houses the AX-48 Pro and includes dedicated space for the boom
