

Key Features & Benefits

- Fluidity:**
 The smallest fluid video head available on the market.
- Ease of Use:**
 Sliding plate for balancing the camera and a leveling column for easy positioning. Larger feet and column hook help to maintain high stability while shooting.
- Reliability:**
 Reliable Fluid Drag System for the smoothest movement during your cinematic video footage.
- Compatibility:**
 The new video head is compatible with the existing BeFree family, 290 light and all 40mm diameter tripods. It is great for use with small camcorders, compact system cameras and DSLRs.
- Compact & Lightweight:**
 The most compact and lightweight high-quality video tripod—best performance in a carry-on size.

Presenting the BeFree Live Kit & Head

Taking videography content creation wanderlust to a new level!

The BeFree Live is designed to be light and compact to reliably support video content creation using small camcorders, compact system cameras and DSLRs.

It is the smallest video kit in the Manfrotto video range. Easy to use, with a minimalist design and lightweight, compact features. Designed to reliably support small camcorders, Compact System Cameras and DSLRs,

BeFree Live meets all the needs of the expanding community of video content creators, vloggers and mobile journalists.

The new Manfrotto BeFree Live boasts awesome fluidity on pan & tilt along with perfect levelling. The pan bar is removable and foldable for extra portability. The tripod reliably supports a payload of 8.8 pounds and extends to a height of 59.4 inches, yet folds down to a mere 16.5 inches long and itself weighs only 3.9 pounds. It has larger, rugged feet and a special hook for extra stability, regardless of where it is set up. The head features a sliding plate for use with a wide array of camcorders, CSCs and DSLRs.
