# Proximity Series
## av storage solutions

The Proximity Series supports technology behind the display to elevate any mount to an expertly installed AV system. Options include a mounting plate for integrating small devices directly to a display mount and in-wall boxes that offer greater flexibility when more space is required.

## In-Wall Box

Proximity Series In-Wall Boxes are engineered to provide convenient storage of AV system components recessed in the wall behind the display. This innovative design offers unmatched configurability that maximizes space and enables fast, easy mounting of components.

- The industry's only in-wall box built for small device mounting flexibility with patented Lever Lock™ technology built-in
  - Four levels of mounting space offer unmatched configurability to maximize space for storage of gear
  - Included tool-free Lever Lock accessories enable quick installation and efficient servicing of the system
  - Patented UMS pattern simplifies mounting of small devices
- Designed to natively incorporate Middle Atlantic compact power solutions
- Includes J-box and duplex receptacle

- Certified to UL 2416 for safe, reliable installs
- Trim ring included to hide drywall cut and provide an aesthetic finish; knockouts included for high voltage power and wire management

## Mounting Plate

Proximity Series Mounting Plates attach directly to the display mount and offer convenient, local small device mounting and cable tie-down. The included mounting arm attaches directly to any side of your chosen VESA mount, and features multiple locations for attachment of the mounting plate to the arm.

- Patented UMS pattern simplifies mounting of small devices
- Attaches to any standard VESA mount
- Adjustable for a wide range of display sizes
