Micro Airwall Hanger

Micro Airwall Hanger

The Micro Airwall Hanger fits Modernfold # 14 and any movable wall track with a .5 inch slot to a .625 inch slot in the bottom. Simply insert the Micro Airwall Hanger into the movable wall's slot, twist the Micro Airwall Hanger 90 degrees and spin the collar to tighten. Easily fasten a light fixture, pipe, or cables along the airwall track. The Micro Airwall Hanger has a one piece zinc plated steel central shaft with a half inch by one inch crossbar, a central threaded portion to secure the clamp to the movable wall channel, and a 1/2"-13 TPI threaded socket on the bottom of the clamp for attaching the load. There is a knurled ring on the internally threaded aluminum collar that is rotated to secure the Micro Airwall Hanger to the half inch movable wall channel. The Micro Airwall Hanger is rated for up to a 500 pound design load, and has a minimum of a 10 to 1 design factor.

Weight .5 pounds

Order Codes **TBC** Micro Airwall Hanger, Silver
