Typical Application:

This is an extremely versatile box for placing convenient (NEMA 5-20) receptacles exactly where you need them. The powerCON® connectors are compact and economical. With different length extensions you can create your own receptacle stringers. It also allows Edison (NEMA 5-15) equipped gear to be plugged into powerCON® distribution systems. The optional threaded insert allows the rubber quad box to be suspended from battens, truss or other structures.
