

Technical Specifications

TL-SMG Show-me Table Inserts

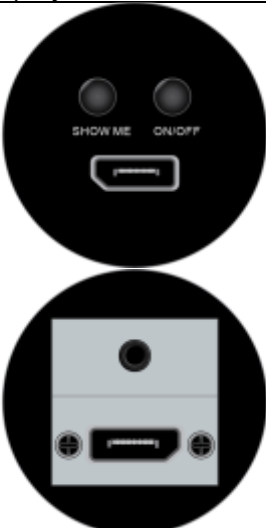

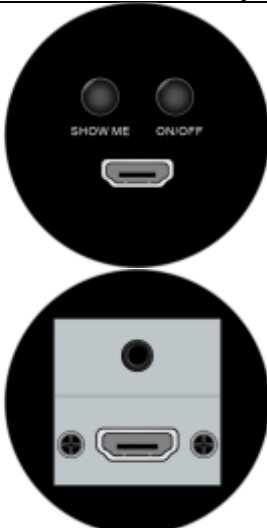

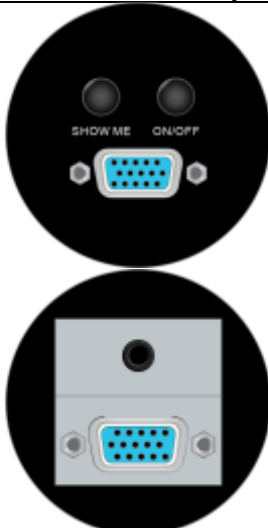

Features at a Glance

- Models for HDMI, VGA and DisplayPort connectivity
- Buttons for display on/off and switching
- Fits 2.25" (57mm) table grommet hole
- Pass-through audio/video connections
- 3.5mm control cable connection
- No power connection required
- Mounts securely to the table
- Compatible with TechLogix TL-SM3X1

TL-SMG table inserts are the perfect complement to TechLogix TL-SM3X1 switchers. They not only provide local HDMI, DisplayPort and VGA connections, but also provide intuitive control for input switching and display on/off.

Essentially, the TL-SMG and TL-SM3X1 system is a high-quality, inexpensive control and signal management system that anyone can understand.

Each unit includes an under-table mounting bracket that locks the insert securely to any flat surface.
