

Be impactful without breaking your budget

EDE Series 65"/75" affordable commercial LED LCD displays

Is it possible to be impactful and cost-conscious at the same time? It is with the Samsung ED-E Series, our most affordable commercial-grade LED display solution. Available in 65" and 75" models, these simple yet innovative displays are ideal for a wide range of industries—everything from retail, education and healthcare to entertainment venues and quick service restaurants. Full HD screens deliver vibrant and detailed imagery, multiple inputs offer flexible content options, and the 3-year onsite warranty brings peace of mind. Think maximum impact at an affordable price.

Key features

More connectivity options

Since flexible content options are important, the ED-E Series delivers a multitude of connectivity choices. Inputs include VGA, DVI-D, HDMI and Component/Composite.

An affordable solution

The ED-E Series is Samsung's most affordable large format commercial-grade LED display solution, which means it doesn't take much to make a huge impact.

Commercial reliability

While the ED-E Series displays are affordable, they're also every bit as reliable as Samsung's most expensive display panels. The ED-E Series displays are backed by a 3-year onsite warranty.

High resolution

Samsung's ED-E Series displays are bright, vivid and sharp. They feature 1920 x 1080 Full HD resolution for crisp motion graphics and easily readable text.

Direct-lit LED backlight

Direct-lit LED technology delivers sharp, high-resolution images, along with the uniform brightness typical of traditional CCFL-backlit displays. It also uses less energy, with savings of up to 50% over CCFL. And it does it all with a cost comparable to CCFL.
