 Eye contact : Rinse immediately with plenty of water for at least 15 minutes. If irritation persists, seek prompt medical attention.
 Ingestion : Call a physician or Poison Control Centre immediately. Dilute with large quantities of water or milk. Never give anything by mouth to an unconscious person. Induce vomiting if and as directed by medical personnel.
 Notes for physician : Low degree of toxicity.

SECTION 5 – FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability : Not flammable under normal conditions of handling. May decompose to form toxic/corrosive gasses if exposed to high heat.
 Flammability classification (OSHA 29 CFR 1910. 1200) : Not flammable.
 Flash point : Not applicable.
 Flash point Method : Not applicable. Auto-ignition temperature : Not available.
 Lower flammable limit (% by vol.) : Not applicable. Upper flammable limit (% by vol.) : Not applicable.
 Suitable extinguishing media : Use media suitable to the surrounding fire such as water fog or fine spray, alcohol foams, carbon dioxide and dry chemical.
 Explosion data: Sensitivity to mechanical impact / static discharge : Not sensitive to static discharge or mechanical impact under normal conditions of use and handling.
 Special fire-fighting procedures/equipment : In case of fire, evacuate area. Firefighters should wear self-contained breathing apparatus (SCBA). In confined spaces or where the risk of skin exposure is much higher (e.g. handling bulk material), impervious clothing should also be worn. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas or for large spill clean-up sites.
 Hazardous combustion products : Thermal decomposition products include: Ammonia.
 Oxidizing properties : None.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions : Wear suitable protective clothing (see Section 8).
 Environmental precautions : If necessary, dike well ahead of the spill to prevent runoff into drains, sewers, or any natural waterway or drinking supply.

- Spill response/cleanup : Absorb material with mop or sponge. Place contaminated material in sealed containers for disposal. Wash area thoroughly with a detergent solution and rinse well with water.
- Containment : Place in an approved metal container. Seal the container.

SECTION 7 – HANDLING AND STORAGE

- Safe Handling procedures : Do not ingest. Avoid prolonged, direct contact with skin. Keep containers closed when not in use. Use with adequate ventilation. Do not breathe vapors or spray mist. Avoid contact with eyes.
- Storage requirements : Store in a cool, dry, well-ventilated area. Do not freeze. Inspect periodically for damage or leaks.
- Incompatible materials : Incompatible with strong acids and bases.
- Special packaging materials : Liquid-proof glass, plastic or non-corrodible metal containers are recommended.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

- Ventilation and engineering measures : General mechanical ventilation is sufficient for use with this product. Provide adequate cross air circulation. Ensure fresh air during application and drying (for example, by opening all windows and doors or using mechanical ventilation).
- Respiratory protection : Not required under normal conditions of handling. Use NIOSH/MSHA approved full-face respirator with an organic vapor cartridge if the recommended exposure limit is exceeded.
- Skin protection : Wear impervious gloves, such as neoprene or nitrile rubber.
- Eye / face protection : Safety glasses with side shields should be used with this product. Chemical splash goggles are recommended.
- Other protective equipment : Emergency showers and eyewash facilities should be nearby. Wear appropriate impermeable clothing to prevent prolonged and repeated skin contact.
- General hygiene considerations : Wash hands thoroughly after using this product, and before eating, drinking or smoking. Wash hands before breaks and at the end of workday.
