

300 SERIES PRODUCTS FROM SYMETRIX:

Audio Tools for Installed Sound & Broadcast Production

301 Low Distortion Comp/Limiter

A MONO COMP/LIMITER that delivers extremely clean compression for installed sound and broadcast applications. Unique circuitry eliminates secondary causes of distortion during compression, allowing use of shorter release times. PY-3 accessory Y power cord permits two 301's to share a single power supply.

- Automatic Attack/Release button for quick preset setup.
- 115dB Dynamic Range. Ultra-low THD+Noise of less than .008% at any gain reduction level.
- XLR and Euroblock input & output connections.

303 Interface Amplifier (Bi-directional)

A STEREO LEVEL MATCHING AMPLIFIER that accepts balanced or unbalanced inputs and converts them to balanced or unbalanced outputs. Use the 303 to interface a consumer DAT, cassette recorder or computer sound card to a professional recording console or to other +4dBu nominal level equipment.

- Simple, affordable conversion of consumer audio to pro audio without loss of information.
- Stereo XLR and RCA input and output jacks.
- External power supply ensures low noise operation.

305 Distribution Amplifier (1x4)

A ONE INPUT/FOUR OUTPUT mono distribution amplifier. Use the 305 to route your most critical audio to four separate outputs. Sound contractors will find the 305 essential for feeding multiple power amps. Broadcast engineers can easily and inexpensively distribute satellite audio around their station with the 305.

- Euroblock terminal connectors for quick installation.
- Precision circuitry yields THD+Noise less than .009%.
- Four-segment LED input level meter. Individual trim pots for input and output volume attenuation.

307 Dual Isolation Transformer

A TWO INPUT/TWO OUTPUT isolation box for use in installed sound and broadcast audio systems. Isolates ground, positive and negative audio paths to break up ground loops and improve overall system performance. Interfaces balanced and unbalanced devices. Increases resistance to RF interference.

- Euroblock terminal connectors for quick installation.
- Two high-performance audio transformers.
- Flexible grounding options.
