

**LM-DANTE-EXP2 DANTE
INPUT CARD**

**FEATURE
OVERVIEW**

Expands the MIX-16/MIX-32 for connection to Dante network

Easy configuration with the Livemix CS-SOLO or CS-DUO

48 kHz / 96 kHz
24-bit digital audio

Easily update an analog Livemix system

Quick setup & name importing

The Livemix LM-DANTE-EXP2* is a user installable option card for the MIX-16 and MIX-32. This input option card is for connecting to your Dante digital network. Audinate's Dante technology is a widely accepted and highly reliable standard for networked audio, especially in live sound and studio applications.

All the network subscriptions can be made using the touchscreen on the Livemix CS-SOLO or CS-DUO for quick and easy setup. Channels can be setup with a single "Import 1-24" button or each channel can be individually subscribed across multiple devices. Using the Import Names feature, Dante channel names can be assigned to the Livemix channels.

The LM-DANTE-EXP2 is compatible with AES67 networks.

LM-DANTE-EXP
