## Product Overview:

Designed to mount to the rear BNC antenna connector, the LA-124 antenna offers and outstanding coverage range up to 198 m ( 650 ft .). The 90-degree antenna is compatible with the 216 MHz versions of our LT-800 transmitter, LR-100 receiver/amplifier, and the LR-600 receiver/speaker. The LA-124 can also be used to create a custom, remote antenna, such as a wall plate-mounted antenna.

## Highlights:

- Mounts with a BNC connector
- Compatible with 216 MHz equipment including our LT-800 transmitter and LR-100 receiver

Includes:
One (1) LA-124 $90^{\circ}$ Helical Antenna (216 MHz)

| Product Specification: 90 Degree Helical Antenna (216 MHz) |  |
