

ROLLS HR72 / RMS272 CD/MP3 Player

The HR72/RMS272 is a 1/2 rack space CD/MP3 Disc Player. The unit is intended to be installed into the Rolls RMS270 Rack System with either another RMS272, an RMS271 AM/FM Tuner, or an RMS273 MP3 Recorder. The combination of these signal sources is ideal for installation applications like restaurants, clubs, schools, churches, or aerobic studios to name a few. The RS72/RMS272 plays standard audio CDs as well as CDs formatted with MP3 files. The single rack space height makes it convenient to install in most any professional audio rack.

FEATURES:

- Plays standard CDs as well as discs with MP3 files
- RCA and 1/8" (3.5 mm) Outputs
- Track programming
- Repeat All, One, and Shuffle play
- Output Level control
