

ER SERIES

ER-604W SHOULDER MEGAPHONE

THE TOA ER-604W SHOULDER MEGAPHONE is the ideal solution for applications requiring mobile sound reinforcement such as tour guides, product demonstrators and sporting events.

Compact, lightweight and easy to operate, the ER-604W has a built-in 10 watt amplifier, cone speaker, detachable handheld microphone and a pushbutton-activated whistle alert tone. Other features include two microphone inputs for optional headset and/or handheld microphones plus a line input for CD player or other sound source.

Eight AA batteries provide twenty hours of continuous operation with a flashing low battery status indicator. A standby mode preserves battery life when using the external microphone or line inputs. An external AC input allows fixed location use.

The ER-604W Shoulder Megaphone is backed with a five year warranty.

APPLICATIONS

- Auctions
- AV Rentals
- Crowd & Traffic Control
- Emergency & Event Control
- Evacuation Instructions
- Factory Tours
- Industrial
- Marine
- Police & Paramedic
- Fire & Rescue
- Public Address
