Spectrum Series

A new approach to contemporary lecterns. Sound-Craft's Spectrum is designed to provide an attractive, yet functional and durable lectern at a most affordable price. Models include the CFL floor lectern, CML modular lectern with take-apart top and base and CTL table top lectern.

Constructed of structural fiberboard covered in gunmetal gray polypropylene, this carpet-like material is extremely durable and abrasion, stain, and fade resistant. Velcro® compatible, it readily accepts signs or logos equipped with hook tape. Standard color is gunmetal gray. Additional colors shown available at a slight additional upcharge. The top and base are of solid oak, walnut or a black painted hardwood. A 30 watt reading light is included, as are two rear mounted casters for easy mobility. A convenient storage area is provided for materials and supplies. Custom cutouts for special applications are available as an optional service.

when quality matters

Available options include
Public address system
Wireless microphone system
Microphone and support arm
Solid wood front
Protective cover
