

Architectural Specifications
 The suspension device will be a Premier Mounts AST-2446, or equivalent, and can be used to suspend projectors and plasmas from a variety of ceiling structures. It will be made of cold-rolled steel tubing with an inside diameter of 1-1/2" and will support up to 400lbs. It will mount to wood joists or concrete, will be height adjustable from 24" to 44" (in 3/4" increments) and will feature laser cut cable-access ports at both top and bottom. It will be UL listed and approved. Assembly and installation will be performed according to the instructions provided by the manufacturer.

Surface Types - Wood or Concrete
 Weight Capacity - 400lbs.
 Dimensions - 22.75" min. (44" max.) x 2" x 4.5" (base plate)
 Adjustability - 24" to 44" (3/4" increments)
