- *Front Loaded Bass Reflex Subwoofer*
- *Solid Plywood Cabinet Construction*
- *Speakon™ & 1/4-inch Inputs*
- *All-Metal Grille, Integrated Bar Handles & Stand Mount*
- *123dB Maximum SPL*

Overview:

The passive YX18S uses the tried and true vented 18-inch front loaded bass reflex subwoofer design. The internal passive crossover allows the 400-watt YX18S to be added to any system without additional external processing.

Solid plywood cabinet construction ensures the YX18S will remain rattle and buzz-free at the high volumes a subwoofer must endure. Integrated pole mount adaptor allows full range loudspeakers like the YX15 or YX15P to be raised above the crowd easily and effectively with a simple subwoofer stand or speaker pole.

Designed with working musicians in mind, the YX18S offers rugged 5/8-inch plywood cabinet construction, all metal bar handles, metal input plate, integrated speaker mounts and a custom punched, perforated metal grille to protect the speaker.

YX Series Specifications:

MODEL	YX18S
SYSTEM TYPE	Subwoofer
ACTIVE OR PASSIVE	Passive
PROGRAM POWER (Watts)	400
NOMINAL IMPEDANCE (Ohms)	6
