

Advance **BASE PLATE CART**

- The Advance Base Plate Cart (BPC-46) is designed as a utility transport for steel base plates and pinions for pipe and drapery units.
- Constructed of rigid steel with arc welds, the BPC-46 has dual inner partitions allowing a smaller number of plates to be vertically organized and easily accessible in the cart.
- The upper shelf is designed to hold the pinions.
- The BPC-46 rolls on two black rigid 6" casters in the front and two swivel 6" casters with brake in the rear.
- Featuring a sturdy black powder coated finish, the BPC-46 offers a utilitarian solution for managing base plate and pinion inventories.

Six inch black stationary casters in the front with dual swiveling and locking casters in the rear.

The BPC-46 will accommodate up to 46 standard 18" x 18" x 3/8" base plates.

Upper tray is designed for storing base plate pinions.
