THORENS TD800 Series Manual Turntables

The TD800 series are two-speed manual turntables with tone arm and power supply. The chassis of the TD 800 is made of 19mm thick high-density wood standing on three polymer-damped adjustable feet. The chassis is de-coupled and isolated from the mounting surface. The 6 lb platter turns on a maintenance-free silent run bearing made of two sinter bushes with a polished stainless steel axle running inside. The low noise AC-motor is driven from an electronic motor drive unit for consistent speed accuracy. The supplied tonearm is the TP250 with vertical tracking alignment. The TD810 adds a 3/16" steel plate to the chassis for further reduction of vibrations, and features a 9 lb platter. At the top of the line, the TD850 has a very heavy chassis consisting of a 1/2" steel plate sandwiched between thick wooden plates and comes with the model TP300 tonearm. The 800 series does not come with cartridges. LIST

THORENS TD295 MK1V Two Speed Manual Turntable

A perfect sounding and elegant precision turntable coupled with a beautiful, high gloss furniture finish in mahogany, light wood or piano black finish. The technical requirements and sound quality have been achieved by using a solid wood chassis in a sandwich technology along with a massive 5 lb aluminum platter to get enough inertia and weight to make sure vibration is absorbed and speed fluctuation is very low. The motor is a fully electronic regulated synchronous motor using a belt to drive the platter. The new TD 295MKIV stands on decoupling rubber feet and offers both speeds 33 1/3 and 45 rpm by electronic speed selection. The TP 42 tonearm is supplied plug & play ready with an AT1895 cartridge. The semiautomatic switch-off is made with opto-electronic devices that adds no extra mass to the tonearm. LIST
