

APOLLO PLASTIC AV & VIDEO FURNITURE

Apollo plastic AV and video furniture, manufactured from black-textured, high-density polyethylene, is virtually indestructible. These rugged carts are guaranteed against stains, scratches, dents or rust - and continue to look factory-new even after years of use. They support even the heaviest equipment (Monitors up to 27" & 100lbs max), yet are lightweight for easy mobility. Perfect for schools, industrial or corporate use. These models equipped with UL listed 3-outlet electric assembly, included 15' cord. All plastic carts ship UPS. Easy assembly.

MIDDLE ATLANTIC BGR SERIES RACK ENCLOSURES

These racks have higher weight capacities, provide more useable rack space and are incredibly functional. They feature the patent-pending LeverLock system for tool free installation of cable management accessories and mounting of small devices in areas which were previously unusable. New options include brush grommet rear doors and problem-solving extender bays. The top is configurable and has a generous 21" opening. They offer more useable height - 45RU in less overall height than most 44RU racks. High flow, low energy DC fan system uses less energy to move necessary airflow and the rack is designed with built-in thermal management features. Appearance has also been approved with a new curved front door (plexi or vented) and a vertical trim kit with accent color choices. A small sample is listed below, all models are available in various depths. Please call or visit our website for a complete listing of options and accessories.
