

THE NEW MK 4

LARGE-DIAPHRAGM CONDENSER MIC

SENNHEISER'S FIRST LARGE-DIAPHRAGM CONDENSER

From the soft, subtle intricacies of a finger-picking guitar solo to the powerfully loud vocals on your latest track, the MK 4 is the perfect addition to your mic collection – whether you're buying your first mic or your fiftieth.

Designed and manufactured in Germany, the MK 4 is a true condenser, cardioid microphone that features a one-inch 24-carat gold-plated diaphragm and a full metal housing. Its internal shock mounted capsule enables this versatile tool to be taken from your studio to the stage, and everywhere in between, to capture your music precisely how you hear it.
