**ALTMAN Q-LITE OPEN FACE**

**FIXTURE** These open-face luminaires are compact, lightweight, multipurpose flood/fill lights ideal for stage, studio and location lighting applications. Designed to operate high color-temperature tungsten halogen lamps, they are well suited for use in tight or confined spaces where maximum light output and beam spread are required for fill or flood lighting. The Q-Lite is rated for up to 1000 watt lamps, and the Q-Lite Jr is rated for up to 650W. 36" Power lead. Lamps not included.

ITEM	DESCRIPTION	PRICE
Q-LITE	1000W open face fixture	157.50
Q-LITE-JR	650W open face fixture	140.00
QL-BD4	Barn door for Q-LITE	29.75
QL-JR-BD4	Barn door for Q-LITE-JR	25.20
FCM-EIKO	1000W, 3200K lamp	6.38

**COOL-LUX**  
PRO TOOLS FOR THE TRADE

**COOL-LUX U3 TRI-LIGHT** Designed for on-site video production, the U3 can change light output without using dimmers or altering color temperature. The light comes with (2) 35W flood lamps and (1) 20W spot, each with an individual power switch, the combined output is 1500 LUX. Also includes rotating gel holder, daylight and diffusion gels and a 4-pin XLR power cord. Features solid aluminum construction.

ITEM	DESCRIPTION	PRICE
U30010	U3 Tri-Light w/ two 35W floods and one 20W spot	275.00
DC5000	Optional in-line dimmer	99.95

**COOL-LUX SL3000** The SL3000 is a versatile soft/broad on-camera light. It allows illumination over a wide area and with the included hood it becomes a lightweight softlight. It features a color neutral metal reflector that is softer than white and will never turn yellow. Softlight: 90°. Broadlight: 130°. Weighs 9oz without hood. Includes 5/8" made standard mount.

ITEM	DESCRIPTION	PRICE
SL3010	Softlight/Broadlight, 100W DC lamp, 100W AC lamp, 4-pin XLR DC power cord, AC power cord, AD 600W dimmer	319.00

DC5000	Optional in-line dimmer	99.95

**lowel**

**LOWEL OMNI-LIGHT FOCUSING**

Double parabolic peened reflector. Halogen source. Focus range is up to 10:1. Watts: 500 and 420 at 120V; 650 at 220/240V; 250 at 30V (battery operation); 100 at 12V (car and battery operation). Quick-change high-intensity reflector. Light controls: expandable barndoors, snoot, scrims, dichroic filter, diffuser, cookaloris. Uses Tota accessories: umbrella, gel-frame, flags, etc. Mounting system: stand, clamps, wall/door mount, camera-top. Protective front screen.

ITEM	DESCRIPTION	PRICE
01-10	Omni-light with 16' cable	158.95
01-20	Omni barndoors	57.95

**LITE PANELS** LITEPANELS® MICRO ON CAMERA LIGHT

Litepanels® Micro & Micro-Pro are professional LED daylight fixtures ideal for use with small DV camcorders or DSLR cameras. The Micro works with optional adapter plates to power the light using a Sony, Panasonic or Canon camera battery (plate-specific, not compatible with Micro-Pro). The Micro-Pro is the larger model, producing twice the illumination of the Micro. The Micro comes with an attached flip-down gel holder, a 3-piece gel set and 4 AA batteries (the Pro model comes with 6 batteries and 3 gels.) The Micro draws 3W of power and can run for 1.5hrs. on one set of batteries (standard or rechargeable) while the Micro-Pro uses 9W. Both models feature the company's proprietary LED technology in ultra-lightweight and compact packages.

ITEM	DESCRIPTION	PRICE
LP-MICRO	On-camera light w/gels, gel holder, batteries	275.00
LP-MICRO-PRO	Large on-camera light w/gels, batteries	405.00

**LOWEL BLENDER** Lowel Blender™ brings intuitive lighting to your location. 2 sets of LEDs in tungsten & daylight color are quickly & easily blended with rotary dimmer controls, allowing you to perfectly match the mixed light sources of your real world location, or create a contrasting color blend to make your subject stand out. Let your creative instincts be your guide. Powered by AC adaptor or optional battery sled for maximum flexibility.

Blender packs more punch than you've come to expect from compact LED lights, and its small size (4" x 3" x 3") makes it small enough to fit on a pistol grip. Supplied with a set of front diffusers for variable softening and diffusing of the blended output.

ITEM	DESCRIPTION	PRICE
BLN-10	Blender with AC adaptor	538.95
BLN-911LB	Blender with Panasonic battery sled	599.95
BLN-912LB	Blender with Sony battery sled	599.95

**ROSCO LITEPAD™ SLIM PROFILE LIGHT SOURCE**

A slim profile light source that generates a soft, even beam of light and almost no heat. Its small form and lightweight design make it perfect for many places where a larger, typical luminaire could not fit. Drawing just a few Watts of power, LitePad is simple, fast and economical to use in film and television, theatre, live entertainment, and retail/event lighting. Units are sold individually with a simple 12V transformer, or in kits. Axiom models feature steel & aluminum housing and can be affixed to C-stands via bracket, or mounted using velcro, among other methods. Daylight panels listed below, tungsten versions are also available. High output models available as well.

**WESTCOTT SPIDERLITE TD3 FLEXIBLE LIGHT SOURCE**

Whether shooting in the studio, on location in the desert, or filming a sports event, the Spiderlite TD3 offers continuous light that you can take anywhere. Portability and power in a complete system under 10 lbs. It can operate off of any standard 120 outlet as well as run DC using a battery pack and inverter. This light source allows you to run either 3 tungsten halogen lamps, 3 fluorescent lamps, or 2 studio strobes with a modeling lamp. Change your light source, light output, color temperature or environmental temperature instantly. Two separate controls on the back of the unit allow you to run 1-3 lamps. Lighting ratio can be changed quickly without changing color temperature. Rod points are built directly into the light head for attachment of a 12" x 16" soft box. Its reflective surface means any light falling back is again reflected forward for maximum output. Includes a removable 15' power cord.

ITEM	DESCRIPTION	PRICE
4860	Spiderlite TD3	279.90

**WESTCOTT SPIDERLITE TD5 FLEXIBLE LIGHT SOURCE**

Strobe, fluorescent, or tungsten halogen – the Spiderlite TD5 does it all! It allows you to run either 5 tungsten halogen lamps, 5 fluorescent lamps, or 4 studio strobes with a modeling lamp. Change your light source, light output, color temperature or environmental temperature instantly! Three separate controls on the back of the unit allow you to run 1-5 lamps. Lighting ratio can be changed quickly without changing color temperature. Rod points are built directly into the light head for attachment of a soft box, eliminating the need for an adapter ring. Its reflective surface means any light falling back is again reflected forward for maximum output. The heavy-duty handle allows a soft box to be quickly and easily rotated from a vertical to a horizontal position. Comes with a 15' power cord and a bracket to attach the Spiderlite TD5 onto a light stand.

ITEM	DESCRIPTION	PRICE
4820	Spiderlite TD5 flexible light source	363.90
