

COMPUTER AV

the Panasonic HVX-200 or AG-DVX100. It features the benefits of the Zoe family of HDV/DV products. ZOE III provides optimal zoom control in a compact user-friendly remote that easily mounts to tripod handles. It automatically detects what manufacturer lens it is attached to and adjusts itself accordingly. The ZOE III offers innovative remote functionality, including variable stepless zoom speed control, record start stop button, return function button, and a zoom direction change button.

CARTONI JIB Easily assembled, this lightweight portable jib carries up to

15lbs. It adds diagonal tracking and elevation to the pan and tilt movement of a standard fluid head. It folds down to 39" long and permits shooting from ground level to 78" high. The front telescopic arm offers a pan range of 360°. The rear part of the arm is extendable for camera balance with 22lbs of counterweights and a spirit level.

ITEM	DESCRIPTION	PRI
M100	100mm bowl base jib arm with weights	1897.

COMELY COMELYCRANE

85 & 121 Smoother, lighter,

easier to operate; Two new cranes are the result of more than 10 years of production, testing and refining. The ComelyCrane 85 has a reach of over 7' on a 10" vertical voke. On a standard sturdy tripod such as the Manfrotto 028 or 117 tripod, that allows the operator to get smooth cinematic shots 13' above ground. The ComelyCrane 121 has a reach of 10' 1" from the fulcrum – 3' longer than the ComelyCrane 85, lifting the camera 16'. above ground. No tripod head is required. These are made from high-grade aluminum with steel fixed rod tilting assembly. Both have a durable black powder coat finish. The ComelyCrane 85 breaks down to 56", while the ComelyCrane 121 breaks down to 62". The two supplied weight bars can also be used as crane handles. Both are removable and adjustable to side and top positions. Both models include RCA cable, weight caddy, clamps, monitor and microphone mount, and sturdy vinyl carry bag.

ITEM	DESCRIPTION	PRICE
COMELYCRANE-85	51" to 85" adjustable camera crane, 15lbs	787.44
COMELYCRANE-121	62" to 121" adjustable camera crane, 17lbs	931.60

GENUS MATTE BOXES Made from highgrade aluminum, stainless steel and acetyl for a lightweight and durable finish. Each system needs a professional clamp ring to cater for lenses and wide-angle adapters up to 105mm. There are 2 lockable filter holders, 1 fixed and 1 that rotates a full 360 degrees. Filter holders and trays click into place to ensure perfect alignment. Removal of filters is made

easy without the hassle of removing the matte box from its mount. The rayshade is finished with a special optical flat coating to give you excellent light control. The GWMC system comes with one 4"x4" fixed filter holder, one 4"x4" rotating filter holder, two 4"x4" filter trays (one black, one blue), rayshade, and one Donut Style Adaptor Ring. The GMKBAS system adds a French Flag. The GMKSUP systems adds an Advanced Adaptor Bar System. All of the systems require the purchase of an Adaptor Ring that fits their lens. Sizes from 52mm to 86mm available.

IKAN FOLDABLE DOORWAY DOLLY This heavyduty steel dolly system fits on standard size 24.5' tracks, weights 82 lbs., and can be broken down for maximum portability. Holds a cameraperson and a full-size broadcast camera. Comes with camera column, sets of floor and track wheels, seat cushion, push bar, assembly tools and carrying case.

ITEM	DESCRIPTION
FDD01	Foldable, portable dolly system.

JONYJIB JONYJIB2 CAMERA CRANE

What sets this jib apart from others is its ability to telescope and nest within itself. It does not require unsightly or bulky cantilever stabilization wires that other jibs in this range require.

Its lightweight, octagonal, aluminum extension sections start at the tail and progressively get smaller in diameter as you get closer to the camera. Available in 4 versions (9ft, 12ft, 15ft & 18ft) consisting of 3ft sections. Store unused sections in the tail as ballast, lightening your counterweight demand. The pivot point is pre-drilled to mount an optional Anton Bauer Gold Mount plate kit that, with your batteries, can feed an optional passive 12V power distribution box at the tail. The pivot point is also pre-drilled to mount the included LCD monitor mounting bracket or a monitor platform for 5"-9" CRT monitors. All come with 100mm mounting hub and have 2 selectable fulcrum points (except the 9ft version which has 3). The distribution box can feed 12V power to the motorized

pan & tilt head, zoom & focus controls, the monitor and the camera.
