

ikan **IKAN TELEPROMPTERS** The PT1000 teleprompters mount to your camera's hot shoe and sit above the lens as an "over the lens" teleprompter. Both models feature VGA, S-Video and composite inputs, an infrared remote control, anti-glare screen, a rear t-channel mount, auto shut-off feature, onscreen display control, and Mac/PC & NTSC/PAL compatibility. The PT2100 is designed for smaller HD prosumer camcorders and features 70/30 TPT glass and ikan's V8000 8" 4:3 LCD monitor. It is Mac/PC compatible and also features a rear t-channel mount and all necessary mounting hardware. The PT3100 offers a 15" LCD monitor and a camera lift to perfectly center your camera. All models come with ikan's Prompter Pro 2.0 software.

PRO PROMPTER

PRO PROMPTER SEE EYE 2 EYE TELEPROMPTER FOR WEB CAMERAS

Conversing face to face over the web is fantastic, but most webcam users end up staring at their computer screen instead of the person they're talking to. No more talking to foreheads or facial profiles – with See Eye 2 Eye you can talk directly to your family, friends, and business associates. No software necessary – use any text document or video chat program. Most webcams designed to mount on top of a computer monitor will work with See Eye 2 Eye.

PROPROMPTER TELEPROMPTER PACKAGES & PROMAG MAGNIFICATION SYSTEM

The ProPrompter II™ LCD systems are ideal for studios and can also be battery powered for field use. Accommodates HD cameras, wide angle lenses and will fit lenses from 52mm to 100mm. Kits come with the ProPrompter II mirror system, AC power adapter, cigarette lighter adapter, monitor distribution box, software, composite video connection cable with S-video adapter, all of which fit into the supplied hard shell case. The PocketPC version is a complete turnkey solution and comes with an exclusive mirror system, AC charger, proprietary software loaded onto a SD memory card, USB Host adapter, Bluetooth mouse, and a custom hard shell case. Both systems attach to almost any camera lens, have 100mm openings, and come with an 85mm step down ring (other step down conversions are available.) The ProMag optical magnification systems are designed for teleprompting from your iPhone, iPod Touch, Pocket PC or other mobile device. The ProMag is included with each system, or as a standalone system.
