# Ibanez

## IBANEZ JEM STEVE VAI

Steve Vai is one of the revered few on that short list of players who have changed the way we all think about what a guitar can really do. His signature Ibanez guitars are no different: iconic, sublime, awe-inspiring, outrageous. Features The Edge bridge and Lion's Claw cavity, "Monkey Grip", JEM maple/walnut premium neck, DiMarzio Evolution pickups and more.

JEM70VSFG ..... 1399.99

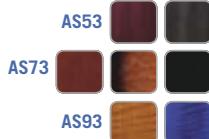

## IBANEZ AS SERIES SEMI-HOLLOW GUITARS

This line of semi-hollow guitars feature pickups mounted to a center sustain block to reduce feedback and increase sustain. AS guitars have set necks and Ibanez's Quick Change III tailpiece. Many options available, including left-handed. See our website for details.

AS53 ..... 299.99  
AS73 ..... 399.99  
AS93 ..... 549.99

### FINISH OPTIONS:

## IBANEZ AF SERIES HOLLOW BODY GUITARS

These hollow body guitars feature no sound blocks and produce traditional jazz tones. All models feature 2 humbucking pickups and traditional 3-way switching. AF75 is available with a tremolo (AF75TG) and left handed.

AF75 ..... 399.99  
AF75TG ..... 529.99  
AF95VLS ..... 599.99

### FINISH OPTIONS:

## IBANEZ AFS SERIES HOLLOW BODY GUITARS

The traditional shape of the AF series but with a 1" thinner body, these guitars offer increased comfort and more midrange tone. All models feature set necks and VBF70 vintage-style vibrato tailpieces. The AFS80T comes in metallic colors with racing stripes.

AFS75T ..... 479.99  
AFS80T ..... 499.99

### FINISH OPTIONS:

## IBANEZ RGS AND S 25TH ANNIVERSARY LIMITED EDITION

The RG1XXV features a 5-piece maple/walnut neck, jumbo frets, American Basswood body, Edge Zero II Bridge w/ZPS3Fe, DiMarzio® Pickups and more. The S1XXV features 3pc maple neck, mahogany body, rosewood fingerboard, ZR bridge w/ ZPS2, INF pickups and fluorescent colored strings.

RG1XXV ..... 899.99  
S1XXV ..... 699.99

### FINISH OPTIONS:

## IBANEZ RG PREMIUM ELECTRIC GUITARS

Built in the same factory as the Prestige series, these feature the same Wizard neck construction. Premium DiMarzio® and CAP-VM pickups offer professional quality tone right out of the box. The Edge-Zero II bridge and tremolo provide excellent tuning stability. Basswood bodies with quilted maple tops.

RG920QM ..... 949.99  
RG927QM ..... 1099.99

### FINISH OPTIONS:

## IBANEZ GIO RG/RX ELECTRIC GUITARS

These affordable instruments offer many of the same features found in Ibanez's more expensive models. All models have maple necks w/rosewood fretboards and basswood bodies. GRG models have 3 pickups (HSH) and GRX have 2 (HH). Available with figured tops and left-handed. See website for detailed listings.

GRG150DX ..... 249.99  
GRX20Z ..... 149.99

### FINISH OPTIONS:

## IBANEZ ART90

Simple and effective, the 22-fret, 24.75" scale ART 90 is a classic single cutaway guitar that was built for modern metal players. The mahogany body is capable of producing traditional warm tones with a fast neck, superior hardware, and customized pickups.

ART90TF ..... 299.99

### FINISH OPTIONS:

## IBANEZ GART60

These single cutaway guitars have arched tops and slim, fast maple necks. The bodies are made of basswood and the fretboard is rosewood w/ dot inlays. The pickups are two Powersound high-output humbuckers. Controls include independent volume for each pickup, overall tone and a 3-way pickup selector switch.

GART60 ..... 199.99

**PEAVEY AT-200 AUTOTUNE GUITAR****NEW!**

Guitar players can now create music in perfect tune and pitch with this guitar that uses Antares Auto-Tune for Guitar, a DSP technology that works behind the scenes to bring perfect pitch to a quality instrument. Electronically self-tuning and continuously intonating, this technology needs no bulky hardware and is intelligent enough to know when players intend to manipulate pitch via bends and vibrato, allowing your personal style to ring as true as your tone. Built-in software upgrade capability allows new features to be easily loaded as they become available.

## ROLAND GR55 GUITAR SYNTH PEDALBOARD

A guitar/bass modeler and synth with a powerful triple-core engine that consists

of 2 PCM synthesizers (with over 900 tones each powered by the latest Roland synthesis technology) and COSM® guitar modeling, featuring a virtual treasure trove of guitar, bass, amp, and synth models. Together, these combined technologies allow you to create unique, revolutionary sounds. The "Metal Synth Lead" preset, for example, combines two types of thick, brilliant synth textures with an overdriven solid-body/humbucking tone for incredible punch and power.

Feature highlights include: revolutionary fusion of guitar synthesis and powerful COSM® guitar modeling, up to 4 sound sources at a time (2 PCM synth tones, plus COSM® guitar modeling and normal guitar input), easy to use and easy to play with hundreds of great sounds for rock or pop guitarists, superb sound quality and lightning-fast processing, over 900 latest fully editable PCM sounds (including pianos, organs, strings, vintage synths, and more), 2 types of multi-effects engines, global reverb, chorus, delay effects, onboard looper, and a built-in USB audio player with foot control. Available with or without GK-3 Divided Pickup.

## ROLAND V-GUITAR SYSTEM

An ultimate guitar modeling system for unlimited sound creation possibilities. It features 2 separate guitar and COSM

amp systems; allows 2 different types of modeled guitars simultaneously and to create different amp sounds to use with each guitar type. Equipped with 2 effects systems featuring a huge selection of BOSS effects, including COSM effects. All this enables perfect processing for each individual guitar. Dual modeling engines allow guitar and amp models to be dynamically switched, layered and combined.

Other feature highlights include the new COSM® electric, acoustic and even bass guitar models, new synth waves such as the famous GR-300, and a guitar to MIDI converter for direct connection to keyboards, sound modules, soft synths, computers, and other MIDI-compatible devices. Supports USB audio and MIDI for easy digital recording and sequencing. Dual GT-Pro-class effects processor enables unequalled flexible tone creation and advanced performance controls, including D BEAM, V-LINK and Ribbon Controller. Simple and intuitive knob-based interface and new design supports live performance. A graphical software editor is included to support sophisticated sound making. Versatile I/O includes USB, S/PDIF and XLR for virtually every type of music production and performance on stage to professional studio recording.
