

**SENNHEISER**

**SENNHEISER IE PROFESSIONAL EARPHONES** In-ear headphones offering great attenuation with outstanding sound quality. The IE4 features natural sound reproduction and has a frequency response of 40Hz-20kHz. The IE60 has neodymium magnets which provide efficient power to its dynamic transducer system. The IE80 has a continuously variable tuning control for precise adjustment of bass response.

ITEM	DESCRIPTION	PRICE
IE4	Dynamic, 40Hz-20kHz	59.95
IE60	Bass, 10Hz-18kHz	249.95
IE80	Adjustable bass, 10Hz-20kHz	449.95

**SENNHEISER IE800** These are dynamic audiophile earphones with very low overall harmonic distortion (<0.06%). The extra wide band (XWB) transducer has a diameter of only 7mm, and is the smallest in its class. It has two protective meshes – one situated in the ear cushion, and one in the cone. This protects against dirt contamination for easy cleaning. The housing is made out of a scratch-resistant ceramic to ensure longevity. Item ships with 5 pairs of adaptor sets, a leather carrying case, and a cleaning tool. These earphones have a 2-year manufacturer's warranty.

ITEM	DESCRIPTION	PRICE
IE800	Dynamic earphones, 3.9' cable, 125dB SPL, 5Hz-46.5kHz (-10dB)	999.99

**AURISONICS ASG-1 IN-EAR MONITOR** The next generation of generic fit (one size fits most) in-ear monitoring technology. Its 15mm custom-designed dynamic driver is placed in the monitor at an optimal angle and ported for superb performance. Multiple drivers are not necessary due to the full-range capabilities of the dynamic driver. The specially designed shape will provide a perfect fit for 90% of users, with optional tips available for the remaining 10%. The ASG-IS "Signature Series" feature all the same features as the ASG-1 but with polished body, chrome plated covers, polished screws, and hand-picked dynamic drivers that exceed the performance of standard drivers. All models include tips and an Otterbox hardshell waterproof case.

ITEM	DESCRIPTION	PRICE
ASG-1	Digital hybrid in-ear monitor, black	279.00
ASG-IS	As above, with chrome finish and different drivers	449.00
RT	Replacement tips: small, medium and large	9.00

**ULTRASONIC T10 EARPHONES** These are equipped with professional micro drivers and have an aluminum housing. They feature linear, natural and distortion-free music playback. The cable (with microphone and remote control) allows easy operation for both music and phone calls. Comes with a high-quality cable and a space-saving transport case, 5 pairs of silicone earbud tips and 2 pairs of high-quality TX-100 comply foam earbud tips, a flight adapter and an OMTP adapter for a wide variety of smartphones.

ITEM	DESCRIPTION	PRICE
T10	Earphones, 19Hz-21kHz, 18Ω	499.95

**Westone**  
THE IN-EAR EXPERTS

**WESTONE PERSONAL LISTENING SERIES**

In-ear models for use with your iPod/MP3 player, CD player, handheld games, tablet or laptop. All feature balanced armature designs and much of the same technology found in Westone's ES Custom Series models. Features include a 1/8" stereo plug, premium comfort tips, replaceable faceplates, dual removable cables and mini-monitor vault travel case.

ITEM	DESCRIPTION	PRICE
W10	Single-driver earphone	COMING SOON!
W20	Dual-driver earphones	COMING SOON!
W30	Triple-driver earphones	COMING SOON!
W40	Quad-driver earphones	COMING SOON!

**WESTONE TRUE-FIT™ AND TRUEFIT+STAR-FIT-KIT FOAM TIPS**

TRUE-FIT™ foam tips feature a smooth eartip surface that increases comfort and longevity. Plush medium-recovery foam ensures easy insertion and maximum seal. The STAR Tips™ silicone tip provides an individual fit for excellent retention, comfort and sound isolation via the flexible design.

ITEM	DESCRIPTION	PRICE
79174	Foam tips, 100 count	59.99
TRUEFIT+STAR-FIT-KIT	One pair of each color/size of the STAR and TRUE-FIT tips. A total of 20 tips in the package (5 pairs per type)	14.99

**Westone**  
THE IN-EAR EXPERTS

**WESTONE AC SERIES CUSTOM-FIT IN-EAR MONITORS**

These in-ear monitors use Westone's custom-fit technology to deliver monitors that are molded specifically for your ear. They feature clear, cold-pour acrylic bodies with an over-the-ear cable design offering superior in-ear comfort and isolation from mechanical cable noise. Other features include balanced armature bodies (1 armature in the AC10, 2 in the AC20), removable EPIC braided cables and a Mini-Monitor vault case.

ITEM	DESCRIPTION	PRICE
AC10	In-ear monitor, single driver	CALL
AC20	In-ear monitor, dual driver	CALL

**WESTONE ELITE SERIES™ CUSTOM IN-EAR MONITORS**

Custom-molded in-ear monitors that greatly reduce onstage noise levels, helping to alleviate vocal fatigue. They feature balanced armature drivers, over-the-ear cable design and a body-heat-activated "flex-canal" to ensure a perfect acoustic seal. All models ship with dual removable cables (MFI & EPIC braided) and a Mini-Monitor vault. Available in a wide variety of colors.

ITEM	DESCRIPTION	PRICE
ES10	Single-driver in-ear monitors	CALL
ES20	Dual-driver in-ear monitors	CALL
ES30	Triple-driver in-ear monitors	CALL
ES50	Five-driver in-ear monitors	CALL

*Custom-fit models require a visit to an Audiologist (exam fee is NOT included in cost of in-ears) Call for more information*

**WESTONE UM-PRO SERIES UNIVERSAL FIT IN-EAR MONITORS**

The UM PRO Series is a line of musician-tuned universal fit in-ear monitors that provide deep isolation and distortion-free sound reproduction. The UM-PRO-10 has a single balanced armature, the UM-PRO-20 has dual balanced armature drivers and the UM-PRO-30 has triple balanced armature drivers. All models have a removable Epic braided cable, Mini-Monitor Vault as well as replaceable silicon and foam tips. The UM-PRO-10 is available in clear, blue or red.

ITEM	DESCRIPTION	PRICE
UM-PRO-10-CL	Single driver in-ear monitor, clear	149.99
UM-PRO-10-BL	As above, blue	149.99
UM-PRO-10-RD	As above, red	149.99
UM-PRO-20	Dual driver in-ear monitor, clear	299.99
UM-PRO-30	Triple driver in ear monitor, clear	399.99

## ELITE SERIES™ MONITORS made in COLORADO, USA

The Westone Elite Series™ represents the culmination of everything we've learned about in-ear monitor technology since we brought our first custom monitors to market in 1996. The purity of sound penetrates your entire being; the masterfully tuned balanced armature drivers satisfy even the most critical ear. Designed for the on-stage musician or the serious audiophile, the proprietary flex-canal body provides the user the most comfortable in-ear monitor on the market today.

# ETYMÖTIC

## ETYMÖTIC RESEARCH ER-4 MICROPRO™ EARPHONES

The ER4 earphones feature Accu-Driver™ balanced-armature, precision-matched, custom-tuned drivers. The ER4S earphones are designed to be used with amplified sources and the ER4PT are for portable sources such as iPods. The ER4PT includes ACCU-Fit eartip options to ensure seal and comfort. Both models have 20Hz-16kHz frequency response, 122dB maximum SPL and 35dB to 42dB of noise isolation. Includes 5' cable with 3.5mm plug.

ITEM	DESCRIPTION	PRICE
ER4S	Balanced armature earphones	299.00
ER4PT	Balanced armature earphones for iPod/MP3, includes eartip options	299.00

## ETYMÖTIC RESEARCH MUSICPRO ELECTRONIC EARPLUGS

Designed for musicians who need aural protection, want to hear naturally and avoid removing earplugs to hear normal conversation, these adaptive noise-reducing earplugs automatically adjust to protect your most valuable instrument – your ears. Two selectable modes of operation allow you to choose your style of protection. Natural hearing with -15dB attenuation when sound exceeds safe levels, or enhanced hearing which boosts soft sounds by 6dB and attenuates unsafe levels by -9dB. Both modes restore natural hearing when sound drops below the safety threshold. Includes ACCU-Fit eartips, flexible neck cord, filter tool and ACCU-Filters™, cleaning tool, batteries, manual and protective case.

ITEM	DESCRIPTION	PRICE
ER125-MP9-15	Electronic earplugs	299.00

## ETYMÖTIC RESEARCH MC3 AND MC5 NOISE-ISOLATING EARPHONES

The mc3 earphones have a 3-button control and in-line mic and are compatible with the iPod® touch (2G, 3G, 4G), iPod® classic, iPod® nano (4G, 5G, 6G), iPod® Shuffle (3G, 4G), iPhone® (3GS, 4S) and the iPad™. The mc5 earphones feature tight, accurate bass with clear high-frequency detail at all listening levels. Also features a high-output 8mm neodymium moving coil driver, a 20Hz-15kHz frequency response and 35dB to 42dB of noise isolation. Both models have a 4' cable with 3.5mm plug and come in black, red, blue, or green.

ITEM	DESCRIPTION	PRICE
MC3	Moving coil earphones with 3-button control and in-line mic (choose color)	79.00
MC5	Moving coil earphones (choose color)	59.00

## ETYMÖTIC RESEARCH HF5™ EARPHONES

These high performance noise-isolating earphones have a high output sensitivity of 105dB SPL and have an 85%+ response accuracy from 20Hz-15kHz. Also feature 35dB to 42dB of noise isolation and include a 4' Kevlar-reinforced cable with a 3.5mm jack. Available in black, ruby and cobalt.

ITEM	DESCRIPTION	PRICE
HF5	Noise isolation earphones (choose color)	129.00

# SHURE

SE SERIES CLEAR

SE SERIES COLOR

**SHURE SE SOUND ISOLATING EARPHONES** These earphones block unwanted background noise. The SE215 has a dynamic microdriver for rich, warm sound and great bass. The SE315 has a microdriver and a tuned bass port. The SE425 has dual HD MicroDrivers, and the SE535 offers triple HD MicroDrivers with a tweeter and dual woofers for spacious sound and deep bass. Each includes a detachable cable, carrying case, and foam sleeves kit.

ITEM	DESCRIPTION	PRICE

SMS-EB-PNK	In-ear headphones, pink	99.95

# Comply™

FOAM TIPS

## COMPLY FOAM TIPS FOR IN-EAR MONITORS

Comply Foam Tips T-Series use specialized memory foam that allows earphones to comfortably rest in the ear. Thirty-times softer than the factory-supplied silicone tips, Comply Foam conforms to the ear canal and remains secure. Please see our website for a complete list of compatible in-ear models.

ITEM	DESCRIPTION	PRICE
T100	Foam tips, fit Etymotic, Shure, Westone and more	14.95
T400	Foam tips, fit Audio-Technica, Sennheiser, Sony and more	13.95

## SHURE SE 846 QUAD DRIVER EARPHONES

The latest addition to Shure's Sound Isolating™ Earphone line, the SE846 encases 4 custom-engineered balanced armature microdrivers for unparalleled definition and clarity. A groundbreaking low-pass filter enables low-end roll-off at ~3dB at 90Hz (~10dB at 250Hz), a previously unattainable deep low-end performance of a true subwoofer, without sacrificing clarity or detail. Ten precision-welded stainless steel plates form 4" of high acoustic mass pathway, naturally enabling low-frequency roll-off to begin at about 75Hz without distortion or artifacts. Adjustable frequency response is available via changeable nozzle inserts and the comfortable sound-isolating sleeves block up to 37dB of ambient noise. Detachable Kevlar® cables and rugged, sweat-resistant construction withstands the extremes of onstage or everyday use.

ITEM	DESCRIPTION	PRICE
SE846-CL	In-ear monitors, quad drivers	999.00
