ULTIMATE SUPPORT MS SERIES MONITOR STANDS These sturdy but sleek studio stands put your monitors at ear level. The MS-80 is a desktop stand and has an angle-adjustable base with non-slip high-density acoustic foam. The MS-90 is a column stand with internal cable-management channels. It has 4 sound decoupling pads, 2 rubber couplers between the column and plates, and spike de-couplers on the base. The MS-100B combines the features of the MS-80 and MS-90 with an angleadjustable base and internal cable-management channels. Each stand has a load capacity of 75 lbs and the stands come in pairs.

ULTIMATE SUPPORT SPEAKER STANDS These telescoping aluminum tripods hold up to 150 lbs and will mate to 1-1/2" and 1-3/8" sockets. The TS-70B has a secure locking pin while the TS-80/88 stands are made from heavy-duty aluminum tubing. The TS-90/99 stands have the TeleLockTM auto-locking ratchet collar to safely raise or lower the stand while a speaker is on it. The TS-100/110 stands feature an air-powered internal shock that lifts speakers 50 lbs or under with no effort. The TS-110BL adds a leveling leg for use on uneven surfaces. Carry bags are sold separately.

ON-STAGE SMS6000-P STUDIO MONITOR STAND

The stand's height adjusts for listening while sitting or standing (from 31"-61" with pre-set positions every 4") and will lock in place with a security pin. Holds up to 90 lbs. 3 adjustable leveling spikes on the bottom of the base (18" spread) keep this stand stable on any carpeted surface. The entire stand breaks down into 3 pieces for easy storage and travel. Gross weight is just under 25.5 lbs. Comes in black.
