AVID ARTIST SERIES CONTROL SURFACES These controllers bring the unparalleled speed, resolution and DAW integration of AVID's high-end pro consoles to the personal studio in a revolutionary ergonomic, slim-line design. Link up to one MC Transport, four MC Mix units and/or an MC Control for up to 36 faders. Control multiple applications and workstations via Ethernet with 250x faster and 8x the resolution of MIDI. They support EuCon, HUI and Mackie Control protocols and use the Studio Monitor Express software. The MC Control features a customizable touchscreen interface, 12 assignable soft keys, 4 touch-sensitive motorized faders, 8 touch-sensitive rotary encoders, and jog/shuttle/zoom wheel and transport controls. The MC Mix features 8 touch-sensitive motorized faders, 8 touch-sensitive rotary encoders, 8 displays for surround metering, parameter and track names. The faders and rotary encoders enable fast access to pan, EQ and plug-ins with clear metering and info displays. MC Transport features a weighted, optically encoded jog wheel and shuttle ring, 7 ergonomic transport/navigation keys with multi-color status LEDs, 6 programmable Soft Keys, 16 numeric keys for time code/marker navigation. All controllers are Mac/PC compatible.

X-TOUCH	Universal controllers with 9 touch-sensitive motor faders, LCD Scribble	599.99
X-TOUCH-COMPACT	Universal controllers with 9 touch-sensitive motor faders	399.99
X-TOUCH-MINI	Ultra-compact universal USB controller	99.99

Softube

NEW!

SOFTUBE CONSOLE 1 CHANNEL-STRIP PLUG-IN & CONTROL SURFACE

Add familiar analog sound and control to your DAW projects with this hybrid system designed to free your mouse from In-The-Box mixing while providing pristine sound. Simply insert the Console 1 plug-in on any DAW mixer channel to route it through the mixer's full-featured channel strip with corresponding hardware controls. Softube's SSL SL 4000 E plug-in is included, featuring models of the 4000 E's classic compressor, high-/low-cut filters, expander/gate, and SSL's classic black knob E 242 EQ. Visual feedback is provided both on-screen and on the hardware which offers LED rings and input/output/gain reduction meters. Other functions include Solo, Mute, Phase Invert, channel grouping, parameter copying across channels, parallel compression, external side-chaining, preset recall and time-saving History for undoing any parameter adjustments (a feature not found in most DAWs). Each channel can be customized with Softube plug-ins, and they even include Transient Shaper. Mac OS X only; VST, VST3, AU and AAX (32-/64-bit).

CONSOLE-1	Channel strip control surface with software	999.99

Solid State Logic

SOLID STATE LOGIC

NUCLEUS DAW CONTROLLER/INTERFACE It features advanced DAW control, transparent SuperAnalogue™ monitoring, high class analog mic pres, pro quality USB audio interface and bundled SSL Duende Native plug-ins. Up to 3 different DAWs can be connected simultaneously with HUI or MCU protocols ensuring compatibility with all leading DAW applications including Pro Tools, Logic and Cubase/Nuendo. It has 2 banks of 8 channel controls, 100mm motorized faders, fully user-definable soft keys and V-Pots, dedicated Select/Solo/Cut buttons and 10-point channel level meters. The Nucleus center section provides large heavy-duty transport buttons, a high quality jog/shuttle wheel, bank/channel/layer selection and navigation/global DAW parameter selection and additional USB keyboard emulation buttons. Other features for excellent visual feedback in low light conditions include bright LCD Digital Scribble Strips, DAW audio level meters, self-illuminating buttons and LED status indicators.

MACKIE®

MACKIE CONTROL UNIVERSAL PRO

This expandable touch-sensitive control surface features 100mm touch-sensitive optical Penny + Giles motorized faders and V-Pot control over software, plug-in effects and virtual instruments. It has 50 dedicated push-buttons, tape-style transport controls, full meter display with track names and parameters, and quick cursor-style buttons for up, down, left, right and zoom. It uses proprietary Mackie communication protocol and onboard USB MIDI interface for direct connection to Mac or PC and up to 3 additional pieces of external MIDI gear. Software-specific Lexan overlays are included and it's expandable via an optional 8 fader extender and Mackie C4 Pro modules. The C4 allows control of up to 32 parameters simultaneously with four 55x2 character backlit LCDs for visual parameter indication and VPot encoders with integrated push-button and LED rings. Works as a standalone and in harmony with Mackie Control Universal Pro (and Extender). It includes C4 Commander Pro software for control of external MIDI-enabled hardware effects, instruments and other devices.
