NORD LEAD 4 PERFORMANCE SYNTHESIZER

This subtractive synth has two oscillators per voice, all the classic Nord waveforms and 20 voices of polyphony. New filter types, layering and synchronization features make this the most powerful Nord Lead yet. The 49-key Lead 4 has built-in effects, MIDI over USB, master clock sync, arpeggiator with patterns, and a chord memory feature that memorizes notes, letting you play and chord with one finger. The new Impulse Morph feature lets you alter your sound in a variety of ways with the press of a single button. Any parameter can be mapped to the modulation wheel, control pedal or note velocity to create expressive performances.
