## AMPEG SVT PRO SERIES HYBRID BASS AMP HEADS

These rackmountable amp heads are all about tone – fat, classic,

all-tube bass tone. Ranging from 300W-1000W these tone monsters offer a midrange center frequency control for 5 distinct "voices". Further tonal tweaking is available via the footswitchable onboard 9-band graphic EQ that can be used as a second channel. SVT-3PRO features Tube Drive Control and tube protection, input pad, bright switch, mute switch and tuner output. SVT-4PRO offers defeatable Optocoupler limiters, variable 0-7:1 compressor and internal 24dB/octave crossover while the 1000W SVT-7PRO includes a footswitchable FX loop, removable rack ears and transformer balanced line output. All models offer Ultra High and Ultra Low boosts as well as ¼" and Neutrik speakON connectors.

ITEM	DESCRIPTION	PRICE
SVT3PRO.....	Bass amp head, 450W @ 4Ω.....	1099.99
SVT4PRO.....	As above, 2x490W @ 4Ω.....	1549.99
SVT7PRO.....	As above, 1000W @ 4Ω.....	799.99

## AMPEG CLASSIC SERIES BASS SPEAKER

**CABINETS** These bass cabs are the perfect companion to your head, combining classic Ampeg tone with a ported design to provide the rich, full low end with fast transients that you need to thump through a mix. Durable heavy-duty Baltic Birch plywood enclosures host 12" Eminence® LF drivers matched to a 3-way level control (SVT112AV/ SVT1212AV) or 10" custom-designed speakers (SVT810AV). SVT810AV offers ¼" and Neutrik® speakON connectors.

ITEM	DESCRIPTION	PRICE
SVT810AV.....	8x10" cabinet, 2x400W stereo @ 2x8Ω, 800W mono @ 4Ω.....	1249.99

SVT1212AV.....	2x12" cabinet, 600W @ 4Ω.....	699.99

## ASHDOWN ENGINEERING CTM-300 TUBE BASS HEAD

The Classic Tube Magnifier (CTM) amplifiers are hand built in the UK Custom Shop and housed in an 18mm Marine grade birch cabinet. There are inputs for active and passive basses that feed into a simple preamp capable of a wide range of tones. A 3-band EQ is supplemented by "Deep", "Mid Shift", and "Bright" controls for further tone shaping. The head also features a tube driven FX loop and tube driven DI with isolated ground. User adjustable bias is included and monitored via the dual function VU meter on the front panel. (6) KT88 tubes provide 300W of power.

ITEM	DESCRIPTION	PRICE
CTM-300.....	Tube bass amp head, 300W.....	2699.99

ABM-500-EVOIII

ABM-900-EVOIII

**ASHDOWN ENGINEERING ABM EVO III SERIES BASS AMPS** These 575W bass amps are available in head-only or combo variations. Three rotary EQ controls provide 20dB of cut and boost and are complemented by two pairs of sliders offering 15dB cut and boost. The EQ section is switched and controllable via footswitch. The single input is switchable between passive and active with a blend of solid state and tube preamps stages which can be preset and selected by footswitch. They also feature a sub-harmonic generator which reproduces the signal an octave below the original and can be blended with the original signal. Front panel mounted DI out with pre or post EQ switching, sub-bass output, tuner output, effects loop and line input. The ABM-500-III is a head mounted in a cabinet. The ABM-500-RC-EVO-III is the rackmount version, and the ABM-900-EVO-III is a 2x575W stereo model.

RUMBLE-200	200W, 1x15" Eminence® ceramic magnet speaker, Overdrive/Contour/Bright/Vintage	399.99
RUMBLE-500	500W, 2x10" Eminence® ceramic magnet speakers, Overdrive/Contour/Bright/Vintage	499.99

RUMBLE-200-HEAD

**FENDER RUMBLE SERIES BASS AMPLIFIERS** Lighter and louder than ever, these re-designed bass amplifier heads offer versatile tone-shaping capabilities. Both models' voicing palette offers switchable Bright, Contour (low-end shaping) and Vintage voicing options, as well as overdrive, for when your tone needs a little 'grunt' for added power. Onboard 4-band EQ allows you to dial in your tone exactly the way you like it. Other features include XLR direct output with ground lift, 1/8" stereo headphone jack for silent practice, soft-touch radio knobs, and a padded tote bag. The matching 8Ω speaker cabinets are constructed from lightweight yet durable plywood and feature the patented Magnetic Rumble Head Attachment System as well as premium HF compression tweeters, pop-out casters for easy transport, 1/4" parallel and Speakon® connectors, removable front grille and Eminence® drivers.

ITEM	DESCRIPTION	PRICE
RUMBLE-200-HEAD	200W bass amplifier head	299.99
RUMBLE-500-HEAD	500W bass amplifier head	399.99
RUMBLE-115-CAB	1x15", 600W bass speaker cabinet	299.99
RUMBLE-410-CAB	4x10", 1000W bass speaker cabinet	399.99

BASSMAN-100T

**FENDER BASSMAN® PRO SERIES AMPS** This classic amp combines durability with clear sound and transport-friendly features. All cabinets offer Eminence® Neodymium speakers, plywood construction, 40Hz-15kHz response, and both 1/4" and Speakon connectors. Both Bassman® heads offer a 12AX7-based tube preamp section, effects loop, Speaker Output Mute (for silent recording), and Fender Automatic Bias for monitoring/adjustment of output tubes. The 100T head includes switchable output power that maintains identical tone at the 100W or 25W setting – no power soak required.

ITEM	DESCRIPTION	PRICE
BASSMAN-100T	2-channel, 100W/25W, selectable impedance, FX loop, tube bass head with footswitch	1449.99
SUPER-BASSMAN	2-channel, 300W, selectable impedance, FX loop, tube bass head with footswitch	1799.99

BASS-STRATEGY-HEAD

**MESA ENGINEERING ALL-TUBE BASS HEADS** These surprisingly lightweight bass amps feature an entirely tube-driven circuit to deliver the warm, massive tone that only tubes can provide. The Strategy Eight:88 and Prodigy 4:88 both feature Mesa's patented Multi-Watt™ technology allowing you to run the amps at full and half power to accommodate your volume needs without changing your tone. The amps have an adjustable bias control with an LED indicator to accommodate the wider tolerances of the KT88 power tubes. They are fan cooled, have a balanced XLR DI out with ground lift, fully buffered effects loop, tuner output with mute switch, footswitchable solo level control, and include a slip cover.

HEADLINER-1000

### PEAVEY HEADLINER BASS AMP AND SPEAKER CABINETS

1000W of power course through this amp, providing huge sound from a portable 10lb rackmountable head. The 7-band graphic EQ provides up to 15dB of boost/cut at frequencies specially selected for bass. Shape your tone even further via the low and high shelf tone controls. Footswitchable Crunch adds vintage "tube sound" that only distorts high frequencies, preserving the thump of your instrument while the footswitchable optical compressor evens out the dynamics. Other features include Bright/Contour switches, effects loop, master volume, headphone output, XLR DI, active/passive pickup switch and DDT™ clip-eliminating speaker protection circuitry. The matching speaker cabinets provide clear, reliable sound, courtesy of their premium loudspeakers.

ITEM	DESCRIPTION	PRICE
