**G&L TRIBUTE® SERIES ASAT® CLASSIC** Shoot for the stars, just as Leo intended with this updated classic design, named after an anti-satellite missile. Magnetic Field Design™ pickups grace the neck and bridge positions, providing the tones you've come to expect from his designs – warm, round tone at the neck and snarling bite from the bridge pickup. The boxed-steel top-load bridge hosts individual brass saddles for improved intonation and sustain while the traditional control plate is slightly angled, placing the controls in optimum position for volume and tonal swell effects. Other features include 22-fret rock maple medium “C” neck, maple or rosewood fretboard with classic 9” radius, standard 1-5/8” nut and 18:1 sealed-back tuners.

## FINISH OPTIONS:

**G&L TRIBUTE SERIES ASAT CLASSIC BLUESBOY** This factory-modded “custom” version of Leo’s original design pairs the best of traditional designs with the versatility of modern technology to create a guitar that really sings! The G&L Alnico neck humbucking pickup, by renowned designer Paul Gagon, is matched to Leo’s MFD™ single-coil bridge pickup to reproduce this axe’s crisp, cutting attack and complex harmonics. The rock maple neck with rosewood fretboard offers 22 medium-jumbo nickel frets, classic 9” radius and 1-5/8” nut width. The traditional top-load bridge is enhanced with individual brass saddles for sustain, as well as accurate intonation.

**G&L TRIBUTE SERIES ASAT CLASSIC BLUESBOY SEMI-HOLLOW** Some pairings are simply classic; hot rods & rock ‘n’ roll, swamp ash bodies with maple necks and most importantly - neck humbuckers paired with bridge single-coil pickups. Designed for the working musician, this semi-hollow factory-modded guitar sports this classic pickup pair: offering both a warm sounding G&L Paul Gagon-designed Alnico humbucker and a sparkling Leo Fender-designed MFD™ single-coil pickup. The twin voice chambers are matched with an elegant F-hole while old & new collide in the vintage-style bridge paired with individual brass saddles that provide 50’s-style tones and precise modern intonation. Other features include 1-5/8” nut, 22-fret maple neck with medium “C” profile and 9” radius fretboard and 18:1 sealed-back tuners.

FALLOUT-CLEARORANGE

**G&L GUITARS TRIBUTE® SERIES SWAMP ASH FALLOUT™** This exclusive Limited Edition Fallout offers a unique Clear Orange finish, vintage-tinted neck and Swamp Ash body and is available only at Full Compass! Based on the venerable SC-2 model, the Swamp Ash Fallout includes a G&L Saddle Lock bridge for increased sustain and Paul Gagon-designed AlNiCo pickups. The articulate P-90 neck pickup offers sparkling clarity while the humbucking pickup in the bridge adds either girth or bite via the push/pull tone potentiometer coil split. This tonal flexibility makes the Swamp Ash Fallout the ideal instrument for players of any genre - from dirty, grunting low-end riffing to sparkly, chiming chord work, this guitar punches well above its weight. Limited to 92 guitars, so order yours today, before they’re all gone!

**REVEREND GUITARS CHARGER HB** This sonically flexible workhorse twangs, grunts, howls and screams with the best of them, courtesy of its 25.5" scale, and the dual Revtron Classic H pickups reproduce the sound and aesthetics of vintage PAF pickups. Tired of your axe going out of tune during sets? The graphite-impregnated nut and pin-lock tuners provide exceptional tuning stability while the dual-action truss rod adjusts bi-directionally, correcting both back-and forward-bow due to temperature/humidity changes. The passive bass roll-off can revoice your pickups, taking the tone anywhere from warm, thick jazzy tones to sparkling, spanky country and anywhere in-between! The highly resonant body is made from Korina (White Limba).

## FINISH OPTIONS:

**REVEREND GUITARS PETE ANDERSON PA-1 SIGNATURE SEMI-HOLLOWBODY** Feedback has long been the bane of the hollowbodied guitarists' existence – the guitars sound amazing, but howl uncontrollably at performance level volumes. Roots rock guitar legend Pete Anderson and Reverend came up with a solution to this problem: the Uni-Brace. This design not only eliminates unwanted feedback, it also enhances clarity, sustain and even durability. The bushing-mounted bridge, pin-lock tuners and graphite nut stay in tune, even while using the Bigsby B-70 vibrato and roller bridge heavily. Two CP-90 pickups, passive bass roll-off knob and a 15th-fret neck joint all add to this guitar's impressive featureset.

ITEM	DESCRIPTION	PRICE
PA1	Hollowbody electric guitar	1399.00

## FINISH OPTIONS:

**REVEREND GUITARS DOUBLE AGENT III** Like a double agent, it has two personalities in one body and can switch seamlessly between them. Whether you need the "beefiness" of a Special H bridge humbucker, or the complementary sparkling sound of a neck CP-90 pickup, this guitar is ready for you. For even more tonal variation simply reach over and re-voice the custom pickups via the passive bass roll-off circuit to dial-in the perfect sound for you. The Wilkinson WWS50 IIK tremolo with locking saddles and adjustable arm swing tension combines with the pin-lock tuners and graphite nut to provide tuning stability. Other features include a Korina (White Limba) body, maple neck, 22 medium-jumbo frets and comfortable 25-1/2" scale.

ITEM	DESCRIPTION	PRICE
DAIII	Solidbody electric guitar	849.00

## FINISH OPTIONS:

**REVEREND GUITARS FLATROC** Rockabilly, blues and rock guitarists will feel right at home playing this guitar that combines the snap of a classic 25.5" scale maple neck with the unique upper-midrange snarl of the custom Revtron pickups. Pin-lock tuners, combined with a Tune-o-matic bridge and graphite nut, ensure your guitar will stay in tune through those long nights of picking while the dual-action truss rod guarantees your neck will stay comfortable and fast-playing. Need a different voice for your pickups? With the passive bass roll-off knob your Revtrons can easily go from twang to growl - setting your tone exactly where you want it.

ITEM	DESCRIPTION	PRICE
FROC	Solidbody electric guitar	749.00

## FINISH OPTIONS:

**REVEREND GUITARS CLUB KING RT SEMI-HOLLOWBODY** This guitar combines classic semi-hollowbody overtones with sparkle from the easy-playing 25.5" scale maple neck to create an instrument that's a joy to play. The custom overwound Revtron pickups provide sustain, while the passive bass roll-off knob allows you to re-voice them as you please. The Korina body is top-routed to create the tone chambers and then capped with a solid spruce top for bright attack and increased resonance. 22 medium-jumbo frets grace the rosewood fretboard with 12" radius and 1-21/32" nut width.

ITEM	DESCRIPTION	PRICE
CLURT	Semi-hollowbody electric guitar	849.00

## FINISH OPTIONS:

**REVEREND GUITARS WARHAWK III 390** Massive – that's the only way to describe the sound of this guitar that has 3 Reverend CP-90 pickups. The secret is in the construction; the raised center section increases mass, which translates to increased sustain, while the "wings" provide increased resonance, allowing this guitar to really sing! Use the passive bass roll-off knob to re-voice your pickups and add some "shimmer" to your chords with the Bigsby vibrato tailpiece matched to a stable tune-o-matic bridge. The graphite nut and pin-lock tuners make for stable tuning while the Korina body offers rich harmonics. Together all of these parts add up to a lively, highly-responsive instrument that is a blast to play.

MINI-RECTIFIER-25

**MESA ENGINEERING RECTIFIER® GUITAR AMPLIFIERS**

For 20 years the Rectifier amplifiers have defined American high-gain sound. These amps maintain their tight low end under even the most extreme settings. Recto amps now feature Multi-Watt™ technology. The Dual Rectifier head has 3 independent channels, each with gain, treble, mid, bass, presence and master control and channel assignable dual-rectification. Includes 3x3 6-button footswitch. The Mini Rectifier 25 head produces the same tones you've come to expect from a Rectifier head but in a 2-channel ultra-compact package. It is switchable between 10W and 25W and includes a padded gig bag and 1-button footswitch.

Fender

FENDER '68 CUSTOM AMPLIFIERS

These re-issues pay tribute to the "silver-face" Fender amps of the late '60s. Used by players across the entire musical spectrum, these amplifiers hold an important place in rock and roll, blues, jazz, and many other musical styles' history. The '68 Custom Deluxe and Custom Twin amps feature Celestion G12V-70 speakers that give them a more rock and roll flavor. The '68 Princeton Custom is loaded with a 10" Celestion TEN 30 speaker. The tone-stacks of all models have been modified to give the player more modern tonal flexibility with pedals.

# HEIR TO THE TONE

## The Peavey ValveKing® Series

Hartley Peavey developed the ValveKing® Series of amplifiers with one goal in mind—to put real boutique features and tone technology into the hands of real working musicians. In stark contrast with similarly featured “boutique” amplifiers, the ValveKing is no trophy-room amp—it’s rugged, road-ready and made to be played. This is the kind of innovation you’ve come to expect from Peavey.

**BLACKSTAR  
ID-CORE SERIES GUITAR AMPLIFIERS**

Intuitive traditional controls are matched with digital versatility in these stereo combo amplifiers. The patented ISF control works in tandem with the traditional Tone controls to allow the amp to be voiced with blendable tones from the UK to USA. The six-setting Voice control, modulation, delay and reverb settings can be saved in one of 6 storage locations for later recall. Other features include onboard USB port for direct recording, speaker-emulated output and MP3/line input. The free Blackstar INSIDER software allows deep editing and storage of patches from your computer, as well as the ability to upload, download and share patches with Blackstar's online community.

M-2000-HB

FINISH OPTIONS:

**G&L TRIBUTE M-2000 SERIES** The M-2000 and M-2500 expand the sonic palette of what was already one of history's most versatile basses. The Leo Fender-designed MFD™ pickups have been paired with an all-new 18V preamp system designed by Paul Gagon. The M-2000's preamp uses top quality components like the LF442 chip, and 100% poly caps provides a whole new range of tones and incredible headroom. Transparent finishes feature ash bodies, solid finishes offer basswood bodies. All necks are hard-rock maple with rosewood or maple fretboards.

ITEM	DESCRIPTION	PRICE
M-2000	4-string bass	699.99
M-2500	5-string bass	729.99

FINISH OPTIONS:

**G&L TRIBUTE SERIES L-2000** Bass is the foundation of rock n roll – the instrument that all others build on. Basses need bases to build upon too, and the heart of this bass is the flexible TriTone™ control system. This system features mini-toggle switches for pickup selection (G&L's MFD pickups, of course), series/parallel signal routing, active/passive operation, and volume/treble/bass knobs. Great for anything from R&B, rock to modern country, this bass uses the Leo-designed Saddle-Lock™ bridge to create an incredibly resonant instrument.

ITEM	DESCRIPTION	PRICE
L-2000	4-string bass	649.99

**G&L TRIBUTE SERIES M-2000 GTS** G&L's proprietary MFD™ humbucking pickups are matched to a studio-quality 18V preamp with LF442 chip, 100V poly caps and mil-spec circuit board to create a tone monster. The top bound maple-capped mahogany body offers a striking transparent black finish and black headstock. Other features include 3-band EQ with center-detent knobs and "pan" control to blend sounds from the pickups. The hard rock maple neck sports the classic 1-5/8" "C" contour.

ITEM	DESCRIPTION	PRICE
M-2000-GTS-TBK	4-string active bass	749.99

FINISH OPTIONS:

**G&L TRIBUTE SERIES SB-2 ELECTRIC BASS** This bass's familiar body style is sleek and well-balanced. The modern 12" radius "C" neck nestles in your hand comfortably while the MFD™ pickups provide a variety of tones, from modern to vintage, via the J-inspired dual-volume control setup. Leo's Saddle-Lock™ bridge transfers string energy directly into the instrument for incredible sustain.

ITEM	DESCRIPTION	PRICE
SB-2	4-string bass	549.99

FINISH OPTIONS:

**REVEREND DECISION BASS** A distinctly modern take on the classic "PJ" bass, the Reverend Decision bass has a korina body, 5-piece maple/walnut neck with a 6-bolt neck plate and a rosewood fretboard. In the bridge position is a unique J-Rail pickup and Reverend's Split Brick single coil is in the neck position. Shape your tone with a master volume, tone and pickup pan. The hi-mass Lock Down bridge and heavy-duty tuners give this bass clarity and sustain.

ITEM	DESCRIPTION	PRICE
DSN	4-string bass	899.00

FINISH OPTIONS:

**REVEREND THUNDER GUN** A 5-piece set neck, Korina body and custom pickups combine to give the Thunder Gun thick, old-school tone and modern punch. Reverend's pickups are designed to achieve balance in each pickup position giving the bass even volume and tone when switching. Controls include overall volume and tone and a pan between the Thick Brick bridge and Split Brick neck pickups. A lock down bridge and heavy-duty tuners enhance clarity and provide bell-like sustain.

ITEM	DESCRIPTION	PRICE
TGUN	4-string bass	999.00

FINISH OPTIONS:

**REVEREND DUB KING** The Dub King is a short scale (30") semi-hollow bass with a korina body, solid spruce top, and 5-piece walnut/korina neck. Electronics include Thick Brick bridge and Split Brick neck pickups, master volume and tone and a pickup pan. A hi-mass, lock down bridge and heavy-duty tuners complete the bass. The result is the thick, deep tone you expect from a short-scale semi-hollow with added clarity and sustain.

ITEM	DESCRIPTION	PRICE
DK	4-string, semi-hollow bass	999.00

FINISH OPTIONS:

**REVEREND MERCALLI 5** This 5-string bass puts out strong fundamental notes on the low B with sustain and punch. The neck on the Mercalli is 5-piece with a rosewood fretboard, binding, and block inlays. The body is made of korina which gives the bass clarity and vintage warmth. Two custom pickups, a split coil in the neck and a humbucker in the bridge, are controlled with a master tone, master volume and pickup pan. A Six-bolt neck, lock down bridge, and heavy duty tuners complete the package.

**KEMPER PROFILING AMP**

An entirely new way to capture the sound of any amp, "Profiling" creates dynamic, multi-dimensional representations of tube amps that have never before been possible. Profiling an amp is as simple as plugging your amp into the Profiler and pressing "record." Once profiled you can control the sound of the amp as never before, including definition, power sagging, pick attack independent of gain, amp compression, and cabinet voicings. In addition to the vast library of profiled amps the Kemper boasts a huge library of stomp box effects, a powerful EQ section, speaker cabinet profiles, and ample I/O. The standard Kemper comes in a lunchbox-style chassis, however a 19" rackmount version is also available.

**MARTIN GUITARS USB ACOUSTIC/ELECTRIC GUITARS**

Classic and current combine to create these great-sounding, affordable instruments with onboard USB for making great-sounding computer-based recordings. The comfortable solid Sipo 14-fret neck hosts 20 frets on its black Richlite fretboard while the A-Frame "X-1"-braced solid Sitka Spruce top creates crisp cutting tone, mellowed slightly by the solid saepele back and sides. The natural-sounding onboard Fishman Sonitone USB preamp places volume and tone controls inside the soundhole, where they're easily accessible for on-the-fly adjustments, and provides 1/4" and USB connections. Hardshell case included.

GPCPA4-SHADED

**MARTIN GUITARS SHADED ACOUSTIC GUITARS**

Whether they're being played by a campfire, or under stage lights, these shaded-top acoustic/electric guitars look as great as they sound. The solid Sitka Spruce top offers eye-catching 17-style shading and clear tone while the saepele back and sides add warmth to the tone. Hybrid "X" scalloped bracing provides a strong base for the top, while still allowing it to resonate freely and project amazing tone. For amplified situations, the onboard Fishman F1 Analog preamp provides volume, tone and phase controls and also includes an onboard tuner to help ensure your performances will sound their best. Includes hardshell case.

D-17M

000-17SM

**MARTIN GUITARS 17 SERIES**

So popular they're back in production for a third time. These all solid-wood guitars resurrect the classic aesthetics of Martin's Style 17 guitars, which were produced from 1856-1898 and 1906-1968. Both models feature a shaded gloss Sitka Spruce top, mahogany back and sides, and tortoise brown binding. The dreadnought-sized D-17M is perfect for everything from introspective fingerpicking to fiery rock 'n' roll, while 000-sized 000-17SM provides a smaller 12th-fret body and vintage-style slotted headstock.

**LUDWIG CLASSIC MAPLE**

For over a century Ludwig has been crafting some of the most widely-used and oft-recorded drums in history. With a huge variety of shell types, sizes and configurations you can design the perfect kit for your playing style. Legacy Classic drums use the 3-ply shell formula introduced in 1923. Legacy Exotic drums add a modern twist to the 1923 design by adding a thin veneer of exotic wood on the outer shell. The Classic Maple series is a 7-ply formula for optimum resonance and tonality. Ludwig's famous see-thru, Vistalite drums have been updated to provide greater stability to the shells. With so many options available please call your Full Compass sales pro for help designing your dream kit. Call for finish and custom options.

DRS00614SEC	Edge™ snare drum, 6x14", 10-ply maple in natural finish	1194.70

**DW COLLECTOR'S SERIES CONCRETE SNARE DRUMS**

These unique drums are constructed from a proprietary stone composite of steatite (soapstone) powder combined with an acoustically sensitive elastomer. Suitable for the stage or the studio, they provide a unique tone alternative to metal or wood snares. The 5.5mm shell has 45° bearing edges and snare beds. The sound is dry, focused, and has plenty of volume.

DRVC5514SVS	Snare drum, 5.5x14"	825.10

**DW COLLECTOR'S SERIES THIN ALUMINUM SNARES**

These ultra-thin, 1mm snares are great for any musical style. The beadless design produces more resonance and more overtones than traditional rolled aluminum shells. The drum is finished in a matte powder coat and hardware can be customized with any of DW's 5 hardware finishes. Die-cast hoops and tube lugs are also available as custom options.

ITEM	DESCRIPTION	PRICE
DRVM5514SVC	Snare drum, 1mm aluminum, 5.5x14"	430.30
DRVM6514SVC	Snare drum, 1mm aluminum, 6.5x14"	450.45

**DW DESIGN SERIES**

These 8-ply maple shells use new HVL shell technology. The shell starts as a VLT (Vertical Low Timbre) and then gets one more horizontal outer ply, giving the drum more depth, body, and a larger tuning range. Available in 5-piece kits or as individual components in three durable lacquer finishes. The newly designed lugs are low-mass "mini-turret" lugs with True Pitch Tuning. Snare drums include a MAG throw-off.

**YAMAHA STAGE CUSTOM BIRCH**

Not many drumsets are such a good fit for as wide a range of drummers as the Stage Custom. From beginner to pro - jazz to rock, the Stage Custom kit has earned its reputation as a great kit and a great value. The birch shells produce a warm tone with great low fundamentals. Low-mass lugs, YESS mounting hardware, and versatile ball-style tom clamps give the kit its roadworthy status. The kit is available in two sizes without hardware, or with 600 or 700 series hardware.

**YAMAHA LIVE CUSTOM DRUMS**

This new line of professional drums improves upon the design of Oak Custom. The 8 plies are now 10% thicker at 1.2mm per ply, which results in a more powerful sound on stage. The hoops have been thickened as well, producing a tighter sound and sharper response. The lugs are Yamaha's Absolute and a new tom holder design reduces surface area and weight. The hardware is a darker shade of silver and the inside of the drums are painted black. The Live Custom snare has a new heavy-duty strainer. Shell packs are available as well as individual drums. Please contact your Full Compass Sales Pro for additional configuration and single drum options.

# LP AMERICANA SERIES KEVIN RICARD CAJON

Perhaps no artist in the world has done more to popularize the cajon. Kevin Ricard and his many television appearances on the *The Tonight Show with Jay Leno* and *American Idol* have placed Kevin and his cajon front and center in front of millions of viewers.

Kevin's new signature cajon, part of the Americana Series, is built in the USA in the classic Spanish tradition, but this ingenious cajon is designed with individually tunable strings, allowing the player to literally "dial in" precise sound for unmatched response and performance.

## LP AMERICANA SERIES KEVIN RICARD CAJON

- The newest addition to the LP Americana Wood Cajon Series
- Developed by LP in collaboration with famed percussionist, Kevin Ricard
- Constructed of hand-selected, 11-ply, plantation grown, Baltic Birch Wood

# The G Class Double Pedal by Gibraltar.

The perfect fusion of functionality and innovation.

**Eddie Fisher**  
OneRepublic

It looks great, it's very durable, and the attack I get is perfect for my style of playing.

**Chris Fryar**  
Zac Brown Band

Innovative and rugged, the G Class has a feel that's smoother than any other pedal.

**Matt Sorum**  
Velvet Revolver

The G-Class is without a doubt, the smoothest pedal I have ever played. I love it!

**REAL ELECTRONIC DRUMS**

All of these great components couldn't reach their full potential without rich drum and percussion sounds generated from the r.e.d.box drum module (r.e.d stands for Real Electronic Drums).

The r.e.d.box massive 128MB RAM capacity accommodates 1000 High Definition Sounds, 100 High Definition kits, plus space for 100 user-created kits. One very unique and exciting capability of Pearl's r.e.d.box is the Memory Switch, which gives you the ability to flash the memory and substitute a lush, super high-end drum set for the original acoustics.

**PEARL TRU-TRAC ELECTRONIC DRUMHEADS**

These have the same rebound and are the same size as real heads to allow drummers to transition from acoustic to electronic drums with absolutely no alteration to their playing style. The Tru-Trac Electronic Bass Drumhead is mounted to a real drumhead and has the same "give" and feel of a real bass drum. They are available in 2 packages or in individual components so you can convert your own acoustic kit into an electronic kit. Both prepacks include 5 no-drill adapters and all necessary parts and tools to complete your kit's conversion from acoustic to electronic.

**ZILDJIAN GEN16 AE BUFFED BRONZE ACOUSTIC/ELECTRIC CYMBALS**

A reduced volume acoustic and electric cymbal with a new, warmer toned buffed bronze finish. Unlike MIDI trigger pads, these are real acoustic cymbals that sound and respond just like a traditional cymbal, but play at less than a quarter of the volume. A patented dual microphone system and sophisticated digital signal processing enables the AE Cymbal to create a range of natural cymbal sounds without the use of sampling or MIDI. The systems consist of a 5-channel controller, acoustic electric cymbals with pickups, and an included 5-channel cable snake. Additional cymbals and accessories are available, please call your Sales Pro or shop fullcompass.com for more details.

**ROLAND AIRA SYNTHESIZERS**

Enter the AIRA - a music production system with three devices based on Roland's famous analog predecessors and an original voice transformer synth/processor, all designed to seamlessly integrate together in one streamlined, modern package. The two synths, SYSTEM-1 and TB-3, and the TR-8 rhythm performer all utilize Roland's new Analog Circuit Behavior technology (ACB). ACB works by analyzing every aspect of analog circuits, every part of a tone, and every nuance of analog sound-waves to recreate the finest details, tonality and behavior for unmatched precision and sound creation.

**THE SYSTEM-1, 25-KEY SYNTHESIZER** is based off Roland's SYSTEM100 and brings a modern twist to the analog synth with host software control of synth plug-ins, performance-ready LED-lit controls, four oscillators, four-voice polyphony, arpeggiator with SCATTER (real-time, knob-controlled phrase variations), tone and crusher knobs for balance and "edge" tweaking, and a sleek appearance.

**THE TB-3 TOUCH BASSLINE 16-PAD MONOPHONIC BASS SYNTH** takes after the famous Roland TB-303 and adds a unique vibe and feel with touch sensitive pads, 134 sounds (new and old), 4 oscillator effects-processed tones, dedicated temp control, knobs for built-in effects control, 32 step pattern sequencer, random pattern generator and more.

**THE TR-8 RHYTHM PERFORMER** combines the vibe and sound of the TR-808 and TR-909 enhanced with modern design. With 16-pads and tweaking features such as Tune & Decay knobs, Attack & Comp knobs, per-step effects, SCATTER function, intensity knob, four real-time drum rolls, and a slew more, add depth to the 16 kits (made up of 11 instrument types).

**THE VT-3 VOICE TRANSFORMER** is self-defined, but goes beyond aggressive vocal processing (robot voice) and effortless, on-the-fly creativity with the ability to turn your voice into a synth, synth bass, hard-tuned and lo-fi vocals. Comes with distinct auto-pitch effects, vocoder sounds, "glitchy" effects via SCATTER function, reverb, real-time pitch and formant sliders, instant recall for 3 settings, footswitch control, USB buss power and tons more.
