GATOR CASES LAPTOP AND PROJECTOR BAGS

These ATA travel-ready laptop and projector bags feature a rugged nylon construction, storage for file folders, adjustable shoulder strap, and an ergo-grip handle. A separate adjustable cable storage area also acts as an internal divider for the projector section. The bags meet airline specifications for carry-on and have a foldout design that folds flat to pass through TSA X-ray machines. The GAV-LTOFFICETSA case is constructed from polyethylene and has a removable foam-padded laptop tray.

OMNIMOUNT

UNIVERSAL PROJECTOR CEILING MOUNTING SYSTEM Virtually any Video Data projector with threaded inserts will work on this system. It has a 1-1/2" standard threaded pipe mount on top, 3-pattern bolt plate on the top bracket that allows for projector tilt and offset, which slides into a crosshatch-vented lower plate. The projector mounts anywhere on the lower plate using supplied fender washers. The two plates slide together for easy servicing and security cable attachment.

PEERLESS PRG – PRECISION GEAR PROJECTOR MOUNT

The patent-pending precision gear design reduces installation time and makes the mount easier than ever to align. Achieve exact tilt and roll image positioning with a simple turn of a knob. Once the installer sets the precision gear to the desired position it stays securely in place. It will not shift during projector maintenance, bulb replacement, and will not loosen or change alignment due to vibration, accidental bumping etc. Unlike traditional friction-tension settings, the gear won't budge under weight. Supports up to 50lbs. Available in black, silver or white.

PREMIER MOUNTS PBL-UMS UNIVERSAL MOUNT

The Universal Projector Mount features four double-jointed support arms that allow flexible positioning to reach almost any projector mounting point. Each arm can be precisely positioned to avoid covering important projector ventilation and access points. Unique leveling barrels allow the PBL-UMS to adapt to any projector base, no matter how oddly shaped, to maintain a level installation. Its robust construction allows the mount to positively hold the projector fixed at nearly any angle with 360° rotation and more than +/-20° tilt and roll. Can be ceiling-mounted (including vaulted or cathedral ceilings, and single-studs or solid ceiling surfaces) or wall-mounted with an adjustable-height from 9" to 12-1/2"; or built-in low-profile option of only 2-1/2" from mounting surface cable-routing channel for a clean look. The PBL-UMS comes in a dark gray finish and is backed by Premier Mounts' noted lifetime guarantee.
