Blackmagicdesign

BLACKMAGIC DESIGN ATEM TELEVISION STUDIO This live production switcher combines a professional switcher with a broadcast-quality H.264 encoder. With a user-intuitive software control panel, you can control the ATEM from a Mac or PC laptop. The ATEM features 10-bit digital design for high quality video with a low processing delay. It also has an upstream keyer with chroma, pattern, and linear keying and a built-in multi view allowing 10 channels of video to be displayed on one HDMI monitor. Connections include (4) SDI video inputs (10-bit SD/HD), (4) HDMI video inputs, (1) AES/EBU, (1) USB 2.0 and Ethernet.

ITEM	DESCRIPTION	PRICE
ATEM-TV-STUDIO	Pro switcher with H.264 encoder	945.25

BLACKMAGIC DESIGN PRODUCTION STUDIO 4K SWITCHERS These portable production switchers are highly advanced and compact with DVE, 6G-SDI, HDMI 4K, Multi View monitoring and Frame Sync on all SDI inputs. Find all the tools you need for advanced professional switching between SD, HD, or Ultra HD 4K video standards, 2 Media Players and Still Store. Software control via Mac or PC; or use the dedicated hardware panel, which includes a built-in LED display giving various monitoring choices. The 1 M/E has (10) SDI 10-bit inputs, (1) HDMI type A 10-bit input, (8) Total Layers, (1) SDI Program Output, (1) HDMI Output, (3) Aux Outputs, USB 2.0 and more. The 2 M/E has (20) SDI 10-bit inputs, (1) HDMI type A 10-bit input, (13) Total Layers, (3) SDI Program Outputs, (1) HDMI Output, (6) Aux Outputs, USB 2.0, customizable transitions, Super Source, (2) Multi View Outputs, a second M/E Row and more.

ITEM	DESCRIPTION	PRICE

datavideo

DATAVIDEO SE-500 ANALOG VIDEO MIXER/SWITCHER A 4-channel mixer featuring S-video (Y/C) and composite video inputs. Features include dissolve, fade, wipes, splits, PIP and color processor. Channels are internally synced via a built-in dual-channel TBC 4:2:2 frame synchronizer. Has component (YUV) via breakout cable, S-video (Y/C) or composite video output. The SE-500 displays all 4 input sources via a single quad output so only 2 video monitors are needed – one for all inputs, one for output. The input display will also automatically change to preview the next transition if selected. Unit can be manually operated or via RS232 interface. The HS-500 is a mobile studio that pairs the SE-500 mixer/switcher with the TLM-702 dual 7" 16:9 widescreen monitor unit in a lightweight suitcase with rear access for cables.

ITEM	DESCRIPTION	PRICE
SE-500	4-channel video mixer	1000.00
TLM702	Dual 7" 16:9 widescreen monitor unit	850.00
HS-500	Hand-carried studio with SE-500 switcher and TLM-702 monitor unit	2200.00

HORITA
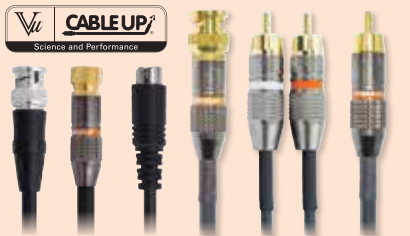

HORITA KCT-50 CHARACTER GENERATOR

A stand-alone video character generator with built-in text editor, that works with a standard PC keyboard (no PC required) to superimpose captions and titles of up to nine lines of 20 characters each, on analog composite video. The horizontal and vertical size and position, black/white, mask on/off, and contrast for the characters is user adjustable. Date and time information can also be automatically inserted in a variety of formats. Up to 25 KCT-50s can be connected and controlled from a single PC keyboard.

ITEM	DESCRIPTION	PRICE
KCT50	Character generator	379.28

FOR.A® INNOVATIONS IN VIDEO and AUDIO TECHNOLOGY

FOR-A HVS-390HS SD/HD-SDI VIDEO SWITCHER The versatile HANABI-series switcher comes in 1M/E (mix effects) or 2M/E configurations, with 1M/E upgradable to 2M/E, and 2M/E upgradable to 2.5M/E. It has (16) HD/SDI inputs - expandable to 24 - with frame synchronizers on each, (4) upconverters - expandable to 12, and (8) HD-SDI outputs plus 1 x HDMI output - expandable to 13. It offers a host of creative video switching options, including full-powered primary M/E, virtual 6M/E switcher, advanced AUX technology (cut/mix/wipe/key and more), (12) total DVE channels, 4 channel internal 60-frame media player for animated bugs/transitions - upgradeable to 120 frames. From a 19" rack mount 12-button, on up to operator-designed 2M/E 28-button panels, there's a myriad of options of control size or type, as well as what fits your environment, including Web browser control. Other control options (sold separately) include a simple remote panel, and an array of AUX control panels.

ITEM	DESCRIPTION	PRICE

DIGI-88B

INTELIX HDMI/HDBASET MATRIX SWITCHERS Each output port allows the same signal to be routed to the HDMI connector and to a remote destination with an HDBaseT receiver. The HDBaseT ports support 1080p HDMI video with audio, bi-directional wide-band IR, HDCP, and matrix control via IR. Additional features include 2K resolution support, Deep Color, full 3D capabilities, control via IP, RS-232, IR, or front panel, and a full command set for RS232 and Ethernet control via 3rd party systems. Comes with an IR remote control that allows IR switching, IR eyes, and IR emitters.

ITEM	DESCRIPTION	PRICE
DIGI-44B	4 in/4 out HDMI/HDBaseT Matrix Switcher with 4 routing presets	1764.00
DIGI-88B	8 in/8 out HDMI/HDBaseT Matrix Switcher with 8 routing presets	CALL

VS88HDCPXL

KRAMER HIGH-PERFORMANCE MATRIX SWITCHERS These professional matrix switchers can route any input to any or all outputs simultaneously. Multiple memory locations allow for storage of multiple switches as presets. The VS-48HDCPXL and VS-88HDCPXL support DVI and HDMI signals on DVI-D connectors, are HDCP and HDTV compatible, support EDID PassThru and have a maximum data rate of 6.75 Gbps (2.25 Gbps per graphic channel). The VS-44HDXL and VS-88HDXL support up to 3G HD-SDI and HD-SDI dual link signals. They have Active Input Type™ Reporting, a maximum data rate of 3 Gbps, and a "Take" button that executes multiple switches at once.

ITEM	DESCRIPTION	PRICE
VS48HDCPXL	4x8 HDCP compliant DVI matrix switcher	2636.00
VS88HDCPXL	8x8 HDCP compliant DVI matrix switcher	3596.00
VS44HDXL	4x4 3G HD-SDI matrix switcher	2636.00

KRAMER VP-725NA 21-INPUT DIGITAL SCALER/SWITCHER The VP-725NA is a presentation scaler/switcher with multiple signal format sections and balanced stereo audio. The unit has 5 independent 4x1 video sections: composite, S–Video (Y/C), component (YUV), computer graphics and HDMI, plus a single USB input. It also scales any video input up or down to a selectable graphics or HDTV output resolution and provides glitch–free switching between sources through FTB™ (fade–thru–black) switching technology. Includes rack ears, remote control, and null-modem adapter.

ITEM	DESCRIPTION	PRICE
VP725NA	21-input digital scaler/switcher with stereo audio	1916.00

KRAMER VP-411DS CG VIDEO/STEREO AUDIO STANDBY SWITCHER This standby switcher will switch to a secondary input when the primary input's signal is lost. Offers computer graphics resolutions of VGA through UXGA and higher (thru 15-pin HD connectors) as well as unbalanced stereo audio signals (through 3.5mm mini-jacks). The VP-411DS features KR-ISP™ Advanced Sync Processing that ensures compatibility with a wide variety of computers by restoring the sync signal waveform. IR remote included. Controllable by RS232, front panel (which features lockout capability) or contact closure.

ITEM	DESCRIPTION	PRICE
VP411DS	Audio/video standby switcher	556.00

KRAMER HDMI AND HDBASET PROSCALE PRESENTATION SWITCHERS/SCALERS The VP-773AMP 1RU high-performance presentation switcher/scaler has 8 inputs: (1) DisplayPort, (1) composite video, (2) VGA, and (4) HDMI, with de-interlacing and full up- and down-scaling on all (with audio) plus (2) HDMI and (1) HDBaseT TP simultaneous scaled outputs. The unit handles HD and computer graphics resolutions up to 2K and 1080p/UXGA, with a 6.75Gbps (2.25Gbps per graphic channel) max. data rate. It features HDMI Deep Color support, I/O colorspace control, picture-in-picture functionality, picture zooming (100%-1600%), built-in time base corrector, Mass Notification Emergency Communication system, selectable microphone talkover/mix modes, selectable power save modes and more. Controlled via front panel buttons, on-screen display, included IR remote, or Ethernet. Includes rack ears and worldwide power supply (100-240V AC). The VP-774AMP adds (1) 3G HD-SDI input and output.

ITEM	DESCRIPTION	PRICE
VP773-AMP	ProScale Presentation Video Switcher/Scaler with 2K support, audio amplifier	2316.00
VP774-AMP	As above, with added 3G HD-SDI input/output	2876.00

KRAMER HIGH-PERFORMANCE HDMI MATRIX SWITCHERS These rackmountable devices can simultaneously route any input to any or all outputs, with bandwidth up to 6.75 Gbps (2.25 Gbps/channel), resolutions up to UXGA and 1080p, as well as signal equalization and reclocking. All models allow you to store multiple switches as presets and also feature HDCP compliance, EDID support, fast switching technology, 3D pass-through. Controllable via IR remote, front panel buttons, RS-232, or Ethernet.

ROLAND V-4EX FOUR-CHANNEL VIDEO MIXER
Compact video mixer ideal for portable or fixed installation use in nightclubs, theaters, performance venues and places of worship. The V-4EX advances the legendary V-4 by including HDMI in/out, progressive internal processing, audio embedding, USB streaming and a built-in multiviewer with touch control. These are in addition to the primary feature set including built-in effects and its famed user interface that incorporates dial controls for effects on each bus and a master output dial. It has 480p/576p progressive internal processing and is HDCP-compliant.

ITEM	DESCRIPTION	PRICE
V-4EX	4-channel video mixer with touch multiviewer	1995.00

ROLAND V-40HD MULTI-FORMAT SD/HD/RGB VIDEO SWITCHER
Each input on this multi-format HD video switcher has a discrete, built-in frame synchronizer and broadcast-quality scaler for scaling to fit any chosen output resolution (up to 1080p). It has (4) inputs with (3) types of connectors: HDMI, RGB/Component, and Composite, for a total of (12) possible video sources—all switchable at the touch of a button. Analog audio can be embedded in the HDMI video output via the analog audio input. Effects include keying, picture-in-picture, wipes and fades. The V-40HD offers (3) output systems—Output 1, Output 2 and Preview, providing various HDMI, RBG/Component, and Composite format combinations. HDCP pass-through is supported, but only for HDMI output. The RS-232C and MIDI connectors allow various control options utilizing compatible devices. Save a total of 25 panel settings in onboard memory with back-up to USB flash drive. Tally connection gives director/camera operator communication.

ITEM	DESCRIPTION	PRICE
V-40HD	Multi-Format SD/HD/RGB Video Switcher	3995.00

Roland®

ROLAND VR-3EX WEB STREAMING/RECORDING AV MIXER This mixer features an 18-channel digital audio mixer on the left and 4-input video mixer with built-in touchscreen multiviewer (PinP, split, quad) on the right. Hook your computer up via USB and record video and audio, stream over a variety of available services, or videoconference or Skype. Video features included a variety of transitions, effects, lower 3rd/subtitle/picture-in-picture creation, and chroma/luma key. The audio mixer features independent EQ, gain, high-pass filter, gate, compressor, delay, and reverb. A separate mix can be recorded from the mix being sent to a PA. Audio mixer inputs include XLR/TRS (1-4), stereo RCA phono (5-6), stereo mini (7-8), and internal stereo mics. Video inputs include HDMI with audio (1-4), RGB/Component on HD DB-15 (4), Composite RCA phono (1-4). Video outputs same signals over similar connections. Audio outputs include L/R on stereo RCA phono, AUX out L/R on 1/4", as well as 1/4" and 1/8" headphones outs.

ITEM	DESCRIPTION	PRICE
VR-3EX	AV mixer with multiviewer	2195.00

ROLAND V-800HD LIVE VIDEO MIXER An all-in-one, 8-channel (16-input) seamless switcher/mixer. Made for live events or installations where a high variety of video input formats are required. The unit features a built-in multiviewer output for a HDMI monitor. The 8 mixing channels provide connectivity to 3G/HD/SD-SDI, DVI-A/D/HDMI, RGB, component, and composite formats, as well as 2 channels for still images via USB stick or frame grab. Multi-Zoom enables 1 input to be shared by 3 other inputs, which can be scaled individually to create a virtual multi-camera environment. The unit is adept at handling LED wall sizing challenges and all situations that require a flexible switcher/mixer. Additional effects include a downstream keyer (DSK), a composite keyer, Picture-in-Picture and multiple transitions. With video output resolutions up to 1080/60p and 4:4:4/10-bit processing the highest quality video is achieved.
