

**SKB 3I-1711-XLX WATERPROOF CASE FOR SHURE SLX/ULX SYSTEMS**

ITEM	DESCRIPTION	PRICE
3I-1711-XLX	Waterproof case for SLX/ULX, interior dimensions: 17" L x 11.5" W x 6" D	129.99

**GATOR CASES WIRELESS MIC ACCESSORIES**

ITEM	DESCRIPTION	PRICE
<b>ATA Mic Cases</b>		
GM1WP	For single wireless system, space for body pack, mic, adjustable tray height, interior receiver dimensions: 8.5" L x 8.5" W x 2" H	149.99
GM4WR	Holds 4 wireless systems (1/2 rack with double sided tape), 4 slot mic/body pack holder under trap door in lid, accessory pocket, foam lid, carpet lined interior	249.99
GM-6W-TSA	Holds 6 wireless mics, battery storage with form fitting foam slots, polyethylene construction, each mic drop is 10.25" L x 2.25" D, with TSA locking latches	129.99
GM-7W-TSA	Holds 7 wireless mics with battery storage, polyethylene construction, 2 lift-out trays with 4 adjustable dividers, with TSA locking latches	169.99
<b>Nylon or EVA Rubber Foam Exterior Cases</b>		
GM-1WEVAA	EVA rubber foam, for single 1/2 rack system, front and rear unzips for access, storage for receiver, beltpack, hh x-mitter, flexible foam receiver cavity dims: 8" L x 8" W x 1.75" H	64.99
GM2W	For 2 wireless systems, 600-denier nylon construction, 2 extra-deep 8.5" mic drops, and compartments, interior receiver dimensions: 8.5" L x 8.5" W x 3.25" H	64.99
GM5W	For 5 wireless systems, nylon construction, 8.5" mic drop, storage compartment for receivers and accessories, interior receiver dimensions: 8.5" x 7" W x 4" H	64.99
<b>Wireless Mic Rack Drawer – 3RU drawer, black powder-coat finish, 16ga steel</b>		
GE-WIRELESSDRWR	Stores 4 wireless mics/body packs, foam storage holds 16 AA cells, accessory compartment, plywood dividers, included lock and key	159.99

**SENNHEISER AC 3200 II ACTIVE HIGH-POWER ANTENNA COMBINER**

Combines up to eight channels for transmission via one antenna, with a broadband design covering 500 - 870 MHz. It significantly reduces intermodulation of wireless monitoring transmitters while keeping backstage clutter to a minimum. Long distances can be covered reliably as the AC 3200 accepts up to 250mW of input power. Includes a NT12-125D in-line power supply, power cable and 4 self-adhesive feet for tabletop use.

ITEM	DESCRIPTION	PRICE
AC3200-II	Active antenna transmitter combiner	3999.00

# SHURE®

**SHURE AXT600 AXIENT® SPECTRUM MANAGER** RF management tools inside this easy-to-use 1RU device include wide-band UHF spectrum scanning and analysis, compatible frequency coordination and continuous back-up frequency monitoring. Scan the global UHF spectrum (470-952MHz) in under a minute and back-up frequencies are instantly and automatically deployed when a compatible receiver detects interference. Other features include "Listen" signal monitoring, RF cascade allowing up to 5 receivers to be connected to one source, and 2 Ethernet ports for computer or ShowLink® Access Point connection. Frequency lists can be imported from Shure's free Wireless Workbench® 6 software, available separately. Works with ULXD and UHF-R systems.

ITEM	DESCRIPTION	PRICE
AXT600US.....	RF spectrum manager/analyzer.....	4999.00

**RF VENUE DFIN DIVERSITY FIN™ ANTENNA** A portable, simple-to-operate wireless microphone antenna, capable of pushing diversity microphone systems to the limits of their performance while excelling in tough RF environments. It reduces microphone drop-outs by using two elements - one that captures vertically polarized waves, and another that captures horizontally polarized waves. Covers a frequency range of 470MHz to 698MHz. Coaxial cables not included. The DFINDISTRO is a 4-channel distribution & Diversity Fin™ Antenna bundle with a 2A internal switching power supply, coaxial cables, and power distribution for 4 receiver units.

ITEM	DESCRIPTION	PRICE
DFIN.....	Diversity Fin™ antenna.....	399.00
DFINDISTRO4.....	Diversity Fin™ antenna and distro bundle kit.....	949.00

### RF VENUE RF SPOTLIGHT™ FLOOR PAD ANTENNA

A low profile floor pad antenna that enables wireless mics and IEMs to work in the most crowded RF environments. Perfect for stages, hotel breakout rooms, conventions, or church sanctuaries. Effective where multiple wireless systems are inter-operating across facilities and open channels are limited. Features a hemispherical pattern, is elliptically polarized and made of durable PVC material with a 50-pound tensile strength rated cabled connector that meets the rigors of production and rental applications. Its operating frequency range is 470MHz to 698MHz. The RF Spotlight is strong enough to pick up signals through most types of composite or wood deck stages and can be placed out of the way in the corner of the stage, installed under a carpet, or where convenient to limit foot traffic and maximize the signal-to-noise ratio for your wireless system.

ITEM	DESCRIPTION	PRICE
RFS.....	RF Spotlight™ floor pad antenna.....	499.00

### RF VENUE 2.4 GHZ CP BEAM HELICAL ANTENNA

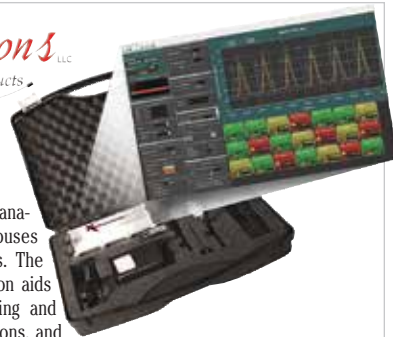

A miniaturized version of the CP Beam UHF helical antenna, this lightweight version is specially designed for maximum gain in the 2.4GHz band. Well-suited for use with digital wireless systems and wireless intercoms, the 2.4GHz CP Beam is equally at home extending Wi-Fi networks or for long range wireless network access. With 14dB of gain, the 2.4GHz CP Beam antenna significantly increases the useable range of digital microphone systems and 2.4GHz devices. Its circularly polarized design reduces signal dropouts and improves link quality.

ITEM	DESCRIPTION	PRICE
24BEAM.....	Miniature helical beam antenna.....	299.00

## Kaltman Creations LLC

"First to Market" Audio Products

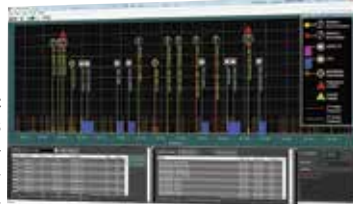

### KALTMAN CREATIONS, LLC INVISIBLE WAVES™ X RF COMMAND CENTER™

This easy-to-use RF spectrum analyzer is perfect for theaters, houses of worship or corporate events. The unique Click to Listen™ function aids in identifying, naming, monitoring and cataloging interesting transmissions, and includes an RF Level Alert™ (Unidentified Frequency Objects) for rogue interference alerts and RF Coordinator™ to identify open, usable RF space. There is an optional rechargeable LiPO battery, providing 4-5 hours of life. The IWAVPRO bundle adds an IWXBATT, directional/amplified antenna and related adapters to the IWXLIVE.

ITEM	DESCRIPTION	PRICE
IWXLIVE.....	RF spectrum analyzer, 9KHz-1.8GHz.....	1657.35
IWXAV.....	RF spectrum analyzer, 9KHz-3.5GHz.....	1966.08
IWXAV-PRO.....	As above, with battery pack, directional amplified antenna, adapters.....	2141.25
IWXBATT.....	Rechargeable LIPO battery.....	226.56

### KALTMAN CREATIONS, LLC INVISIBLE WAVES™ X RF-INTERMOD PRO™ SOFTWARE

Designed to assist wireless mic users, AV installers, and broadcasters RF-IntermodPro™ simplifies calculation and prediction of intermodulation interference of wireless devices. It graphically displays the predicted locations of intermod components and assists in the frequency coordination process. Zoom in and out of the RF spectrum or create custom wireless inventories and groups with easy-to-use "click & drag" functionality. Interfaces with IWx RF Command Center.

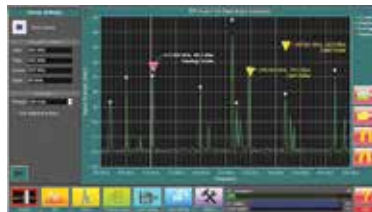

ITEM	DESCRIPTION	PRICE
IWXIMP1.....	Intermodulation calculator, standalone.....	444.16
IWXIMP2.....	Intermodulation calculator for Command Center.....	271.36

### KALTMAN CREATIONS, LLC INVISIBLE WAVES™ X RF-ID FREQUENCY COUNTER

Designed for production companies, RF technicians, and rental houses these RF-ID devices key in on wireless transmissions as near-field frequency counters. The handheld RF-id SOLO confirms exact frequencies and signal strength, while the self-contained RF-id STATION is a carrying case with 8 foam-formed slots, each with a near-field frequency counter for wireless mics or body pack transmitters.

ITEM	DESCRIPTION	PRICE
IWXID1.....	RF-id SOLO handheld frequency counter.....	221.44
IWXID8.....	RF-id STATION 8-slot frequency counter station.....	885.76

### KALTMAN CREATIONS, LLC RF-VUE™

Touch tablet RF analyzers geared for use at concerts, theaters, places of worship and corporate events. This handheld unit integrates into a 10" touch tablet with Windows 8. The T10 covers the standard wireless microphone and IEM frequency range of 470MHz to 700MHz.

ITEM	DESCRIPTION	PRICE
IWXT10.....	RF Analysis tablet, 470MHz-700MHz.....	1711.96
