

SANYO ULTRAMOBILE ECONOMY PROJECTORS

These portable XGA (1028x768) or full widescreen (1280x800) models are equipped with wired or wireless networking interface. These projectors have an "Easy Setup Function" which includes Automatic Vertical Keystone Correction for screen distortion elimination, Auto Input Signal Search and an Input Guidance Function that assists in setting up the projection screen display. They feature a 7W speaker (except for PLC-WXU300/WXU700A), 40"-300" image size, 500:1 contrast ratio, and can be turned off without the need to cool down. Both the WXU700A/WXU300 feature HDMI and USB connectivity and the WXU700A also features high-speed 802.11n wireless LAN, with video streaming & Windows Vista Network Projector Function.

SANYO PLC-XP200L XGA PROJECTOR WITH QUADRIVE

It features an optical engine that improves on conventional 3 LCD systems. By controlling the yellow light independently through a 4th LCD, color purity is increased by approximately 20% compared this projector's predecessor - the PLC-XP100. Its high-output single lamp system yields 7,000 lumens of brightness and it can be installed at any angle to allow ceiling or floor image projection. And a filter sensor automatically advances a clean filter surface when the existing one is dirty. Unit ships without a lens but uses standard XP series lenses. Call for more information about available lenses. The optional PJ-Net Organizer Plus II card enables management/control via a LAN, and monitoring function added by CMOS camera.

ITEM	DESCRIPTION	PRICE
PLCXP200L	QuadDrive (4LCD) engine, XGA (1024x768) projector, 7000 lumens, 2200:1 contrast ratio, no lens	CALL
POA-PN03C	Optional PJ-Net Organizer Plus II w/camera - no additional software required	517.89

SANYO PLC-WTC500AL WXGA MULTIMEDIA PROJECTOR

With WXGA (1280x800) projection, it is possible to project high-quality HD images from nearly any location. It offers an auto lamp selection system (2x 330W) that automatically chooses which lamp to use, making it maintenance-free for about 6000 hours. It offers easy maintenance with an Active Maintenance Filter (AMF) system up to 10,000 hours. It features Picture-in-Picture and Picture-by-Picture functions. Other features include vertical/horizontal lens shifting, keystone correction, 360° projection, and more. Inputs include HDMI, D-Sub15 (RGB), 5x BNC (RGBHV/Video/Y-Pb/Cb-Pr/Cr), RCA (composite), & Mini DIN 4 (S-Video). Audio inputs include 3.5mm stereo jack & 2 x RCA (R/L mono), plus 3.5 mm stereo jack output. Also D-Sub15 monitor out, control inputs D-Sub9 (RS232), USB type B, 3.5 mm stereo jack (cable remote control), & D-Sub25 for PJ-Net Organizer. Includes IR/cable remote control with laser pointer and mouse function, batteries, power cable, USB cable, D-Sub15 cable, & PIN code label.

SANYO PORTABLE MULTIMEDIA PROJECTORS

One of the brightest family of projectors available, with interchangeable lenses, and featuring high quality images. The PLC-XM100 is a 5000 lumen unit, while the PLC-XM-150 is 6000 lumens. Both models support true XGA (1024x768), and a 1000:1 contrast ratio. They have a throw distance of 4.3' to 75.1' and a projection image (diagonal) of 40" to 400". The PLC-ZM5000 is a 5000 lumen unit with WUXGA (1920x1200) resolution, 2000:1 contrast ratio. Other features for all models include horizontal/vertical keystone correction and horizontal/vertical lens shift. Inputs include DVI-D (HDCP), D-sub, composite, component & S-video with audio on RCA & stereo mini jack (PLC-ZM5000L has mini jack only). The PLC-ZM5000L adds an HDMI input. Outputs include D-sub for video and stereo mini jack for audio. They also have RJ24 for wired LAN and USB (type B) for mouse control. (NOTE: L models do not include a lens, allowing you to choose from short to ultra long zoom lenses.)

SANYO PLC-XTC50AL PORTABLE MULTIMEDIA PROJECTOR

Great for continuous operation, it can automatically switch lamps (relay mode) or rotate between 2 lamps (alternating mode) so no lamp maintenance is necessary for approximately 6000 hours. An active maintenance filter (AMF) system means a sensor automatically advances a clean filter surface when the existing one is dirty. Other features include vertical/horizontal lens shifting, keystone correction, 360° projection, USB connector, PJ-Net organizer connector, and more. I/O includes DVI-D, RGB (D-Sub15), RGBHV (5x BNC), Composite (3x RCA), S-video (4-pin mini DIN), monitor out (D-Sub15), audio outs (1/8" TRS & 2x RCA) and remote control (RS232C). When installed on a ceiling, remote control from directly below is possible. Includes wireless remote control, power cord, USB cable, and computer cable. Extensive network control and functionality are possible with the addition of the POA-PN03C PJ-Net Organizer.

Projecting Auditorium Solutions

PLC-ZM5000L

FREE on-site evaluation of your current situation!

Give our experts at SANYO a call, and we'll evaluate your current presentation situation FREE.

SANYO... the solution provider for the most demanding auditorium needs.

Are your presentations out of focus, fuzzy, hard to read, or just not bright enough? Maybe you are having trouble connecting to your current projector?

If you answered yes to any of these issues, give the Presentation Experts at SANYO a call and we will provide a FREE on-site no obligation evaluation of your current presentation situation! We will advise you of the common problems and errors and offer suggestions on how you can improve your presentation

Solutions like SANYO's PLC-ZM5000L, an ideal auditorium High Definition projector with 5,000 lumens, ensure bright beautiful big-screen projection. This projector also features a new optical engine with an Inorganic Liquid Crystal panel and Active Maintenance Filter (AMF) system for higher reliability and lower maintenance costs.

SANYO... Providing More Projector Solutions

Call today or visit our website for more information on SANYO's full line of critically-acclaimed projectors.

SONY

SONY VPLFW300L These ultra-quiet fixed installation, business projectors are ideal for large classrooms, mid-size auditoriums, boardrooms, and for all types. Five lens options are available with throw ratios from 0.9 to 8.0:1 with no gaps. There is also a short-throw fixed lens for mirrored or rear screen applications. The two low wattage (275W) opposed lamps design allows the projector to be tilted freely in the vertical axis. It features tool free lens and filter changes, and lamps and long lasting electrostatic filters are easily accessible. When installed upside down, the image is automatically flipped. They have network capabilities for delivering presentations and performing maintenance over an IP network.

SONY VPL-VWPRO1 HD HOME CINEMA PROJECTOR

Delivers an immersive cinematic experience and full HD 1080p resolution at a great value. Three SXRD micro-display panels work with a specially developed ARC-F (All Range Crisp Focus) lens and BRAVIA® Engine 2 digital video processor to display life-like images that no flat panel HDTV can match. A 200W lamp gives amazing performance in rooms with ambient light from lamps or windows, and Advanced Iris 3 technology delivers a 85,000:1 contrast-ratio by automatically optimizing picture brightness on a scene-by-scene basis. Input connections include component video (Y/Pb/Pr, RCA/HD D-sub 15-pin), composite video (RCA), 2x HDMI, RS232C (D-sub 9-pin) and S-Video (Y/C mini DIN 4-pin). Other features include a 1.6x zoom lens, adjustable lens shift, noise reduction functions, BRAVIA sync, RS232C connectivity and 24p True Cinema technology.

ITEM	DESCRIPTION	PRICE
VPLVWPRO1	Full HD Home Cinema Projector	3499.99

SONY VPL-VW90ES FULL HD 3D PROJECTOR

With an outstanding 3D picture and a wide range of innovative Sony technologies, this projector is designed to satisfy serious home cinema enthusiasts. Built around Sony's Cinema-Quality SXRD panel technology, it delivers a vibrant, bright 3D picture to screens up to 300". The system uses frame-sequential projection and IR LED-switching glasses to deliver an immersive, natural home 3D experience. 2D performance isn't compromised and 2D sources can be converted to 3D using Sony's advanced real-time conversion technique. Input connections include 3D Sync (1x RJ45), Component Y/Pb/Pr (1 3xRCA & 1 15-Pin HD), composite, HDMI (x2) and PC Video. Other features include a 200W high pressure lamp, BRAVIA® Engine 2 processor, Advanced Iris 3 function, Motionflow 240Hz Panel Drive, 24p True Cinema technology, ARC-F lens, noise reduction functions, anamorphic zoom mode, panel alignment function, RS232C control capability and motorized lens shift.
