PEARL TRU-TRAC ELECTRONIC DRUMHEADS

They have the same rebound and are the same sizes as real heads to allow drummers to transition from acoustic to electronic drums with absolutely no alteration to their playing style. The Tru-Trac Electronic Bass Drumhead is mounted to a real drum-head and has the same "give" and feel of a real bass drum. They are available in 2 packages or in individual components so you can convert your own acoustic kit into an electronic kit. Both prepacks include (5) No-Drill Adapters and all necessary parts and tools to complete your kit's conversion from acoustic to electronic.
