

BIAS PEAK STUDIO AUDIO PRODUCTION & MASTERING

- Includes Peak Pro 7 - editing, processing, and mastering application
- SoundSoap 2 & Pro restoration plug-ins
- Master Perfection Suite - 6 new mastering/processing plug-ins
- SoundSaver - LP and cassette restoration
- Squeeze-1 wide band compressor w/ built-in limiting
- Full Redbook compliant CD burning, Japanese CD-TEXT
- Includes DDP Export Extension
- Multi-channel Audio Editing
- XLS Lab virtual instruments, and more loops & effects
- Peak Studio has "Peak Limited" edition of plug-ins included (XT Edition includes full retail AU/RTAS/VST version)

PEAK-STUDIO Audio editor/mastering suite (Mac only) 499.00
PEAK-STUDIO-XT Audio editor/mastering suite (Mac only) 999.00

IZOTOPE OZONE 5 MASTERING SUITE

- Complete mastering system in a single integrated plug-in
- Includes 8 essential mastering tools: Maximizer, Equalizer, Multiband Dynamics, Multiband Stereo Imaging, Post Equalizer, Multiband Harmonic Exciter, Reverb, and Dithering
- New IRC™ III Limiter for louder, fuller masters that preserve crisp transient detail
- Fully-revamped hybrid Reverb module
- Comprehensive preset manager with over 250 professionally-designed presets
- Analog-modeled processing with linear phase precision
- User-definable signal routing & extensive automation support
- Ozone 5 Advanced adds 6 additional component plug-ins, extended features, and an entire suite of configurable meters

OZONE-5 Mastering/processing plug-in native hosts 199.00

Sonnnox SONNOX FRAUNHOFER PRO-CODEC PLUG-IN

- Optimized mixes for distribution over the web
- Co-developed with Fraunhofer IIS, inventors of the MP3 format
- Precisely audition up to five codecs in real time within a DAW environment
- mp3, mp3 Surround, AAC-LC & HE-AAC support
- Illustrates the input/output difference signal and audibility of codec-induced noise
- Batch encode to multiple formats simultaneously
- Instant A-B auditioning for glitch-free switching between codecs

PRO-CODEC Real-time auditioning, encoding/decoding Plug-in 465.00

BIAS MASTER PERFECTION SUITE MASTERING PLUG-IN SUITE

- 6 plug-ins for mastering & sound design pros
- PitchCraft: super natural pitch correction
- Reveal: 7 spectral, power, and phrase analysis tools
- SuperFreq: 4, 6, 8, and 10 band parametric equalization
- Squeeze-3 & -5: the ultimate linear phase multi-band processing
- GateEx: high quality gate and downward expander
- Repli-Q: matches the spectral qualities of your favorite mix to your own tracks

MASTER-PERFECT-SUITE Mastering plug-in suite, Mac/PC 499.00

IZOTOPE RX2 AUDIO RESTORATION

- Complete standalone application designed for audio restoration
- Suppress broadband and tonal noise without harsh artifacts
- Remove intermittent noises, corrupted intervals & gaps with Spectral Repair re-synthesis
- Automatically rebuild clipped audio
- Clean up hum and buzz caused by poor wiring and other electrical problems
- Remove clicks, crackles/pops, digital artifacts
- Innovative metering, advanced spectrogram display available for more detail
- New Freehand Selection, Magic Wand, Denoiser algorithms, and Decrackle

RX2 Audio restoration toolkit 299.00

SONY SONY CD ARCHITECT RED BOOK AUDIO CD MASTERING

- Generate Red Book compliant disc at once premasters
- Up to 32-bit/192kHz audio file support
- Compatible with USB, FireWire, SCSI, IDE/ATAPI drives
- CD text support, use up to 99 tracks and 99 subindices per track
- Over 20 real-time DirectX® effects included
- Buffer under run protection on CD writing
- Imports WAV, CDA, AIFF, MP3, QT, OGG, others
- Exports to WAV, CD architect project (CDP)

CD-ARCHITECT CD mastering software for XP only 99.95

BIAS SOUNDSOAP 2 & SOUNDSOAP PRO 2

- Pro-audio restoration for digital video, audio, music and dialog
- Ideal for archiving from vinyl, or older material
- Includes hum, rumble, click, crackle, and broadband noise reduction tools
- Advanced noise gate, click & crackle removal
- 12 bands of noise reduction, 12 T/R sliders
- Simple intuitive user interface
- SoundSoap 2 is scaled back w/ single band reduction, can run as standalone app

SOUNDSOAP-2 Audio restoration plug-in/stand alone app 99.00
SOUNDSOAP-PRO-2 Audio restoration plug-in 499.00

ROLAND R-MIX MIX MANIPULATION SOFTWARE

- View the elements of a stereo mix as color-coded clouds of energy and frequency matter onscreen
- Freely select and manipulate any element within a stereo mix
- Create your own remixes and mash-ups by using 2 pairs of stereo tracks within R-MIX
- Isolate any desired instrument within a mix, and then solo and slow down that element for study
- Clean up old recordings and master your stereo mixes by adjusting individual instrument levels within a mix and applying noise reduction and effects
- Create "minus-one" type karaoke files from existing songs by lowering the level of the pre-recorded vocal or any other instrument you select
- Compatible with Mac and Windows

R-MIX Audio processing software 199.00

SONY SONY SOUND FORGE 10 PROFESSIONAL DIGITAL AUDIO PRODUCTION SUITE

- Multi-channel audio recording, file editing and processing
- Phase and mono-compatibility meters
- Channel converter for multi-channel files
- Multi-channel capable Spectrum Analysis™ tools
- Integrated Disc-At-Once (DAO) CD Burning
- Gracenote® MusicID™ technology
- Elastic Pro Time Stretch & Pitch Shift Plug-In
- iZotope™ 64-bit SRC (sample rate conversion) & MBIT+ dither (bit-depth conversion)
- Includes Mastering Effects Bundle 2 Powered by iZotope
- Dolby® Digital AC-3 export
- Interactive tutorials

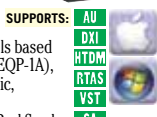

SOUNDFORGE-10.0 DAW software for Windows only 399.95
SEMINAR-SOUNDFORGE10.0 DVD tutorial for Sound Forge 10 79.95

IK MULTIMEDIA T-RACKS 3 MIX/MASTERING SUITE

- Create superb tube-toned or digital-tuned mixes and masters
- Deluxe version has 9 processors comprised of 3 new analog and vintage emulations (including models based on the Fairchild 670 and the Pultec EQP-1A), 2 new digital processors and 4 classic, award-winning T-RackS processors
- Std version includes the 4 classic T-RackS only
- Complete built-in metering section with Peak, Perceived Loudness, Phase, and RMS meters, plus a spectrum analyzer with Peak, RMS and Averaging indicators

T-RACKS-3 Standard mix/mastering w/4 classic processors 199.99
T-RACKS-3-DELUXE Deluxe mix/mastering software suite w/9 processors 399.99

SLATE DIGITAL FG-X VIRTUAL MASTERING CONSOLE

- Extreme transparency, and no degrading artifacts common to peak limiters
- True mastering quality compressor - transparent w/out digitally modeled harmonics or distortions
- Features ITP: "Intelligent Transient Preservations" complex look ahead detection algorithm to analyze oncoming transients and groups of transients
- Optimizes a specialized set of saturation curves for that specific transient
- TRANSIENT function with controls to fine tune mix transients
- SAFETY slider prevents unwanted distortions or crackles from poor frequency balance or small bursts of low frequency energy
- Makes the final master sound more dynamic, open, & punchy

FG-X Virtual mastering console 249.00

WAVES MASTERS BUNDLE NATIVE/TDM

- Mastering suite of plug-ins includes:
- L2 Ultramaximizer with Automatic gain control
- Linear Phase EQ with 5 general bands and 1 LF band
- Linear Multiband Compressor - 5 user defined freq ranges
- Requires iLok authorization key in order to function

MANA Mastering suite for native hosts 525.00
MATDM Mastering suite for Pro Tools TDM 700.00
